The overall academic, MOOC's and examination implementation and regulation are found to be very good by most (42%) of the teachers, 21% found it to be good and 33% have found it to be excellent.

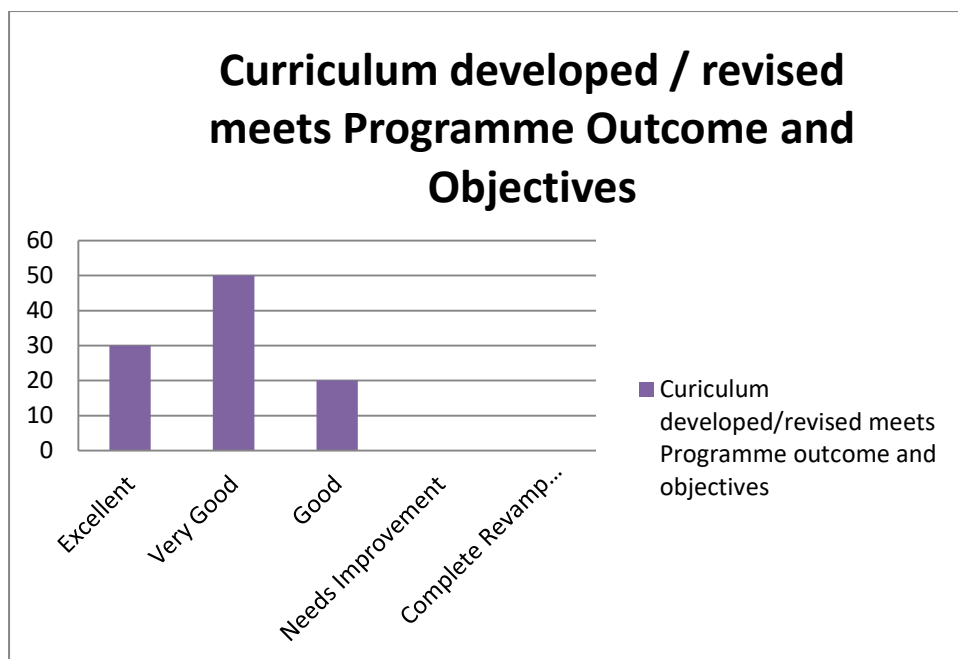

FEEDBACK FROM EMPLOYERS (INDUSTRIAL EXPERTS)

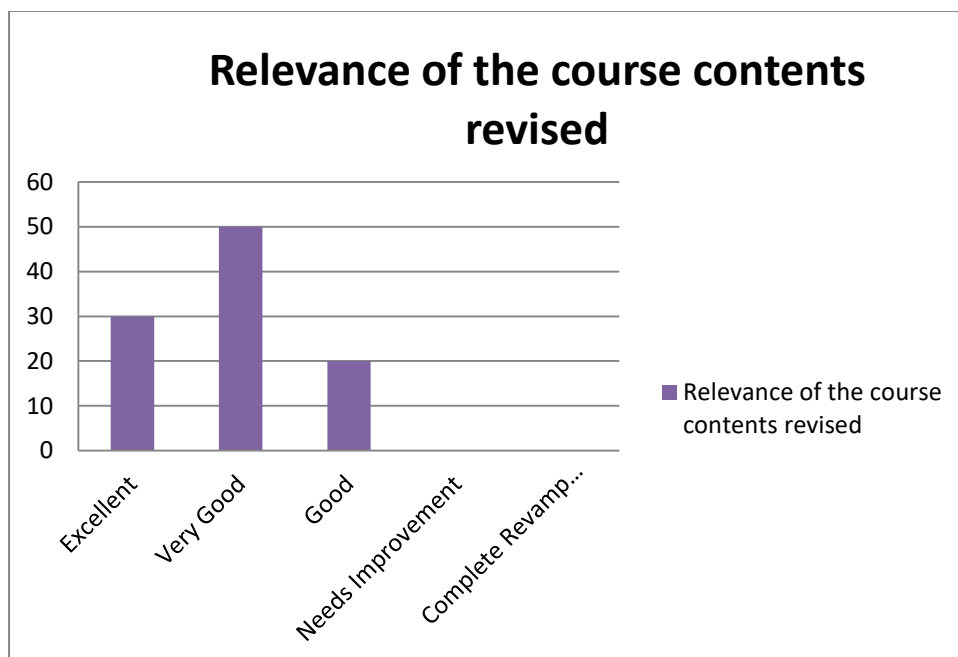

From the feedback received from Employers (Industrial experts), we have observed that the Overall curriculum structure and logical sequence are certified as excellent by most (50%) of the industry experts, 40% of the industry experts have certified it to as very good and only 10% have certified it as good.

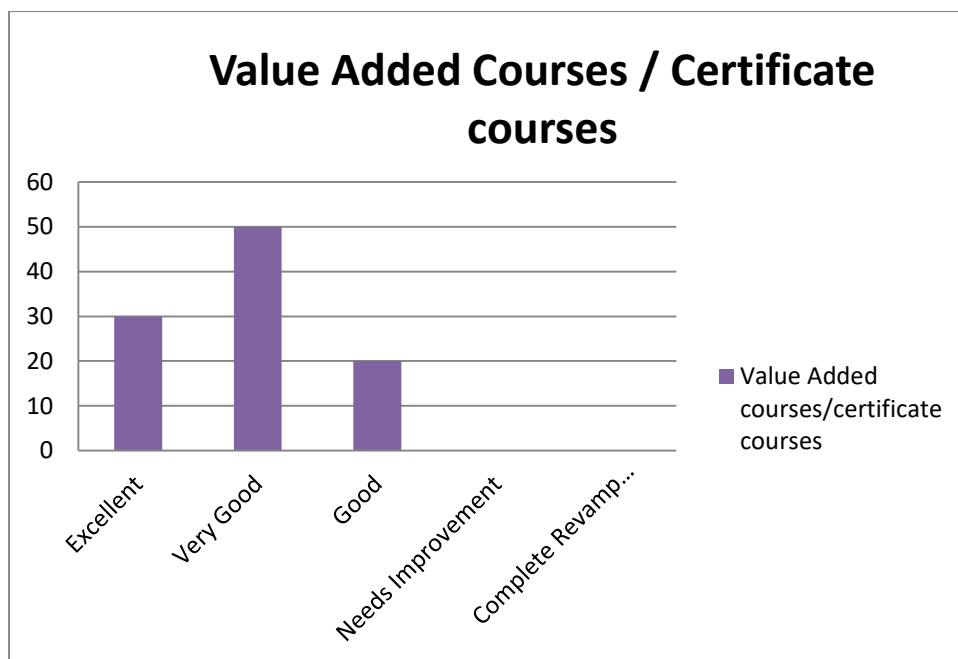

Most (50%) of the industry Experts have answered that the concepts and technologies in curriculum are very good, 30% have found it to be excellent and 20% of industry experts found it to be good.

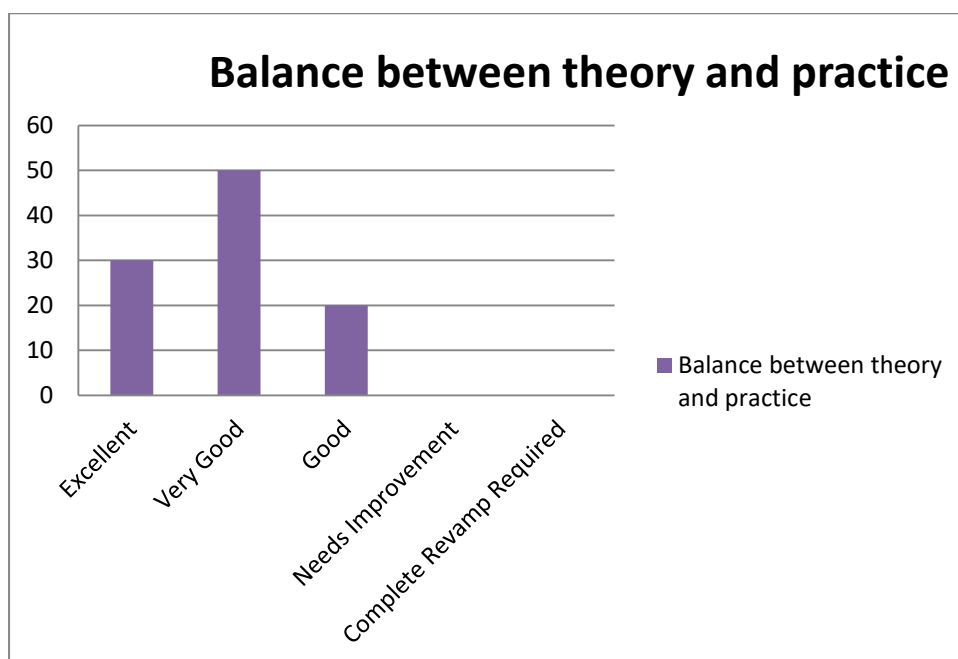

The course content developed meets program outcome are found to be excellent by 40% of the industry experts and Very good by 40% of them.

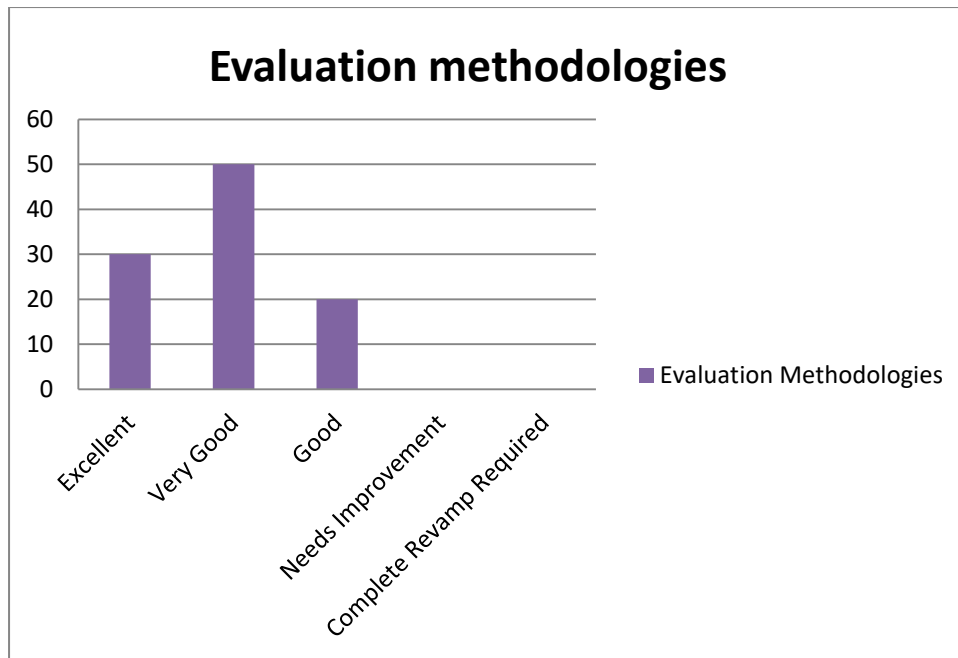

Most(50%) of the industry experts have commented very good for the relevance of course content revised, 40% commented it to be excellent and 10% commented it needs improvement.

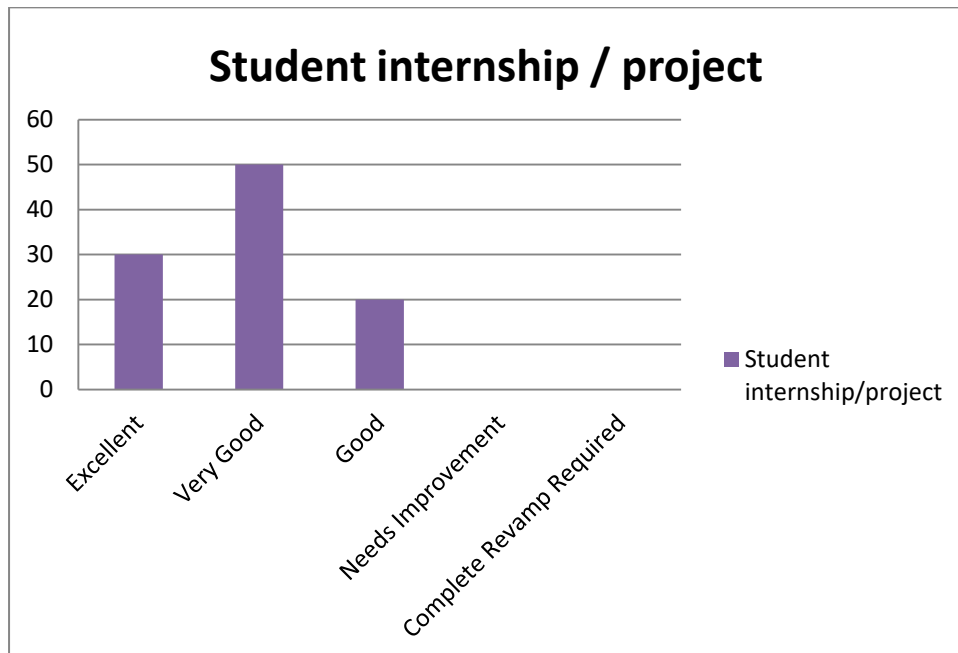

The value added courses and certificates offered by the program in the curriculum are found to be excellent by 40% of the industry experts while remaining 60% have found it to be very good.

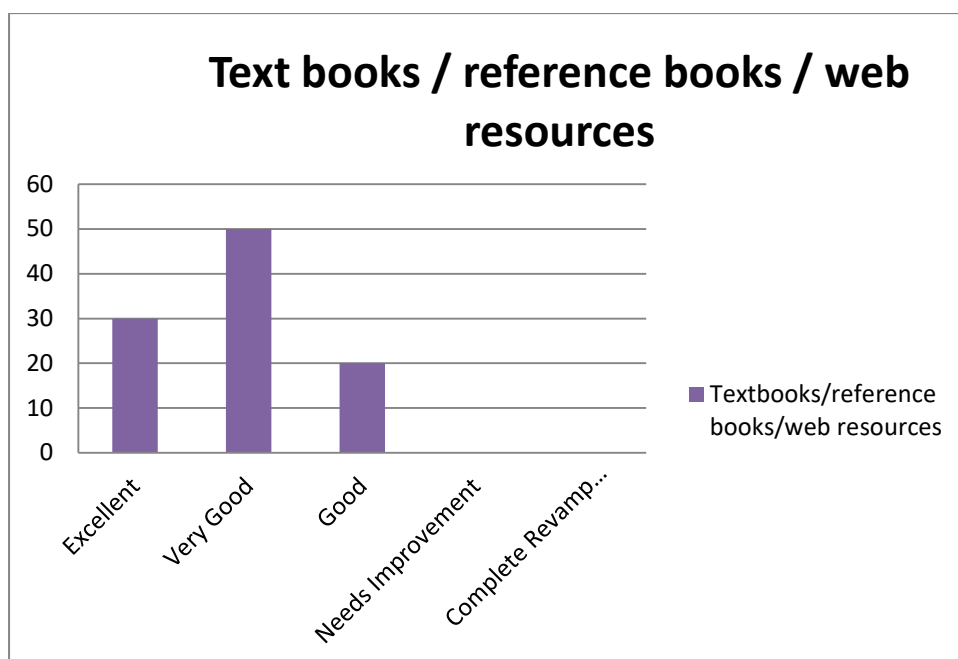

30% of the industry experts have certified excellent for balance between theory and practice in the curriculum, also 50% have certified it to be very good and remaining have certified it to be good and needs improvement.

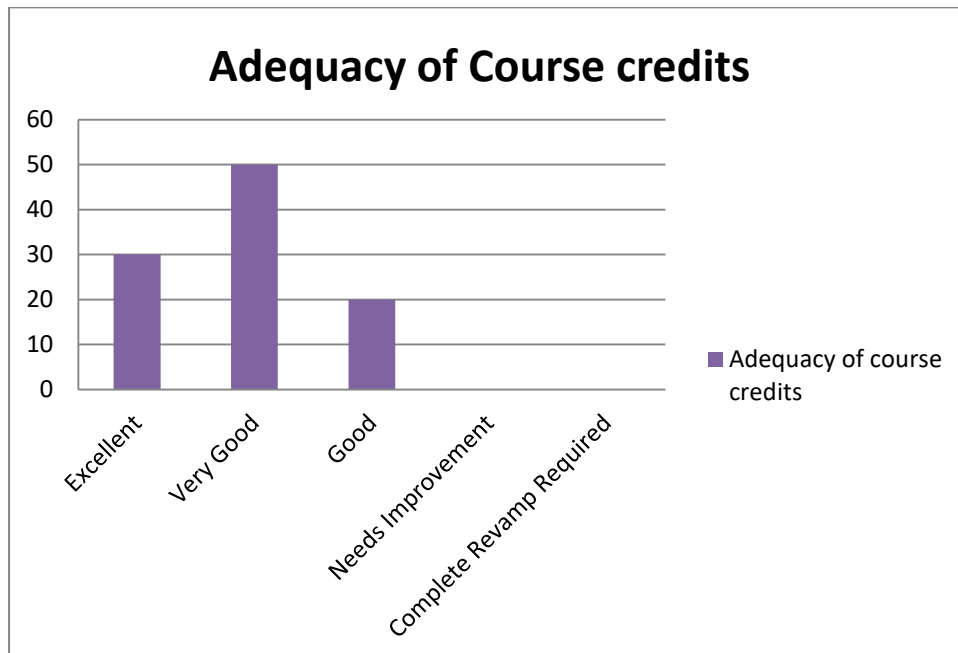

The evaluation methodologies adopted are found to be excellent by (30%) of the industry experts and the remaining 40% and 30% of industry experts have found it to be very good and good.

Regarding the allocation of duration for students internship and project in curriculum most (40%) of the industry experts commented it as excellent and very good, 20% of industry experts have commented it as good.

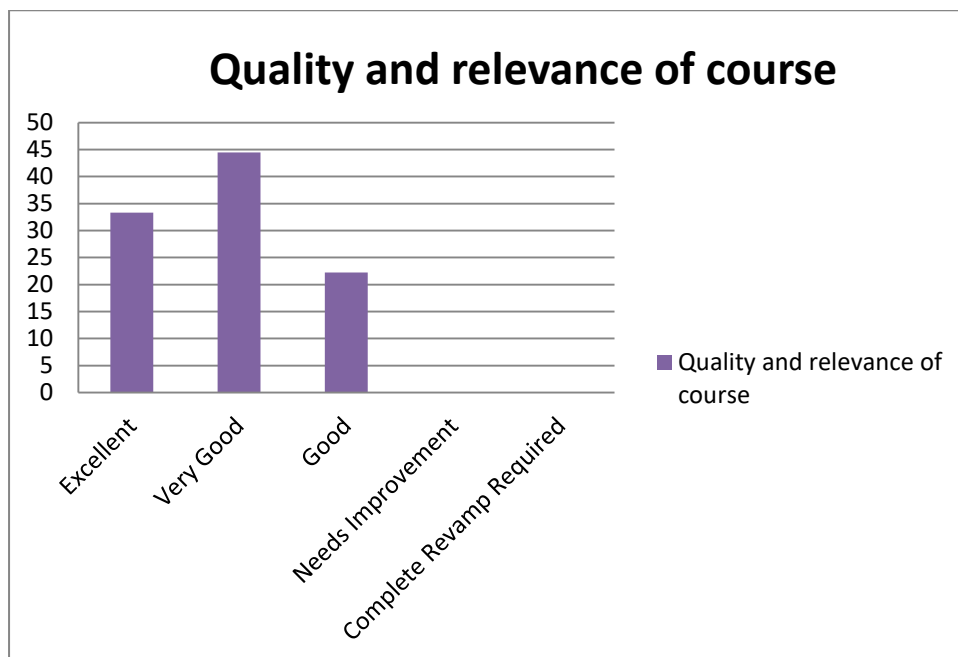

Text books/ reference books/ web resources are adequate for content delivery is certified to be very good by most (70%) of the industry experts, 20% have certified it as excellent and on 10% have certified it as good.

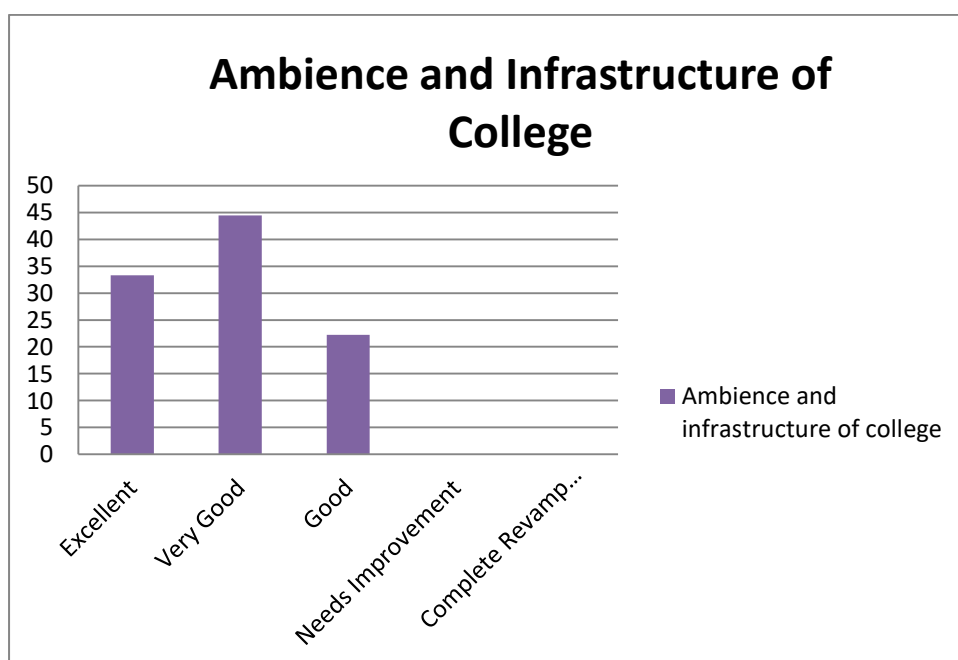

Adequacy of course credits and its ability to produce graduates in terms of knowledge and skill has been commented as excellent by 30% of industry experts and remaining 50% and 20% have commented it as very good and good.

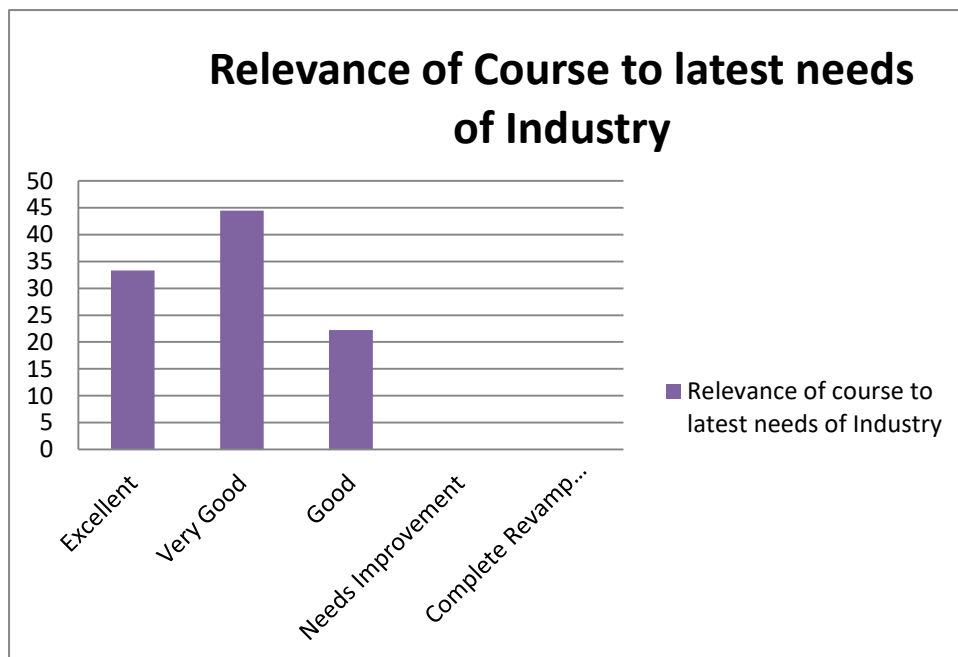

FEEDBACK FROM PARENTS

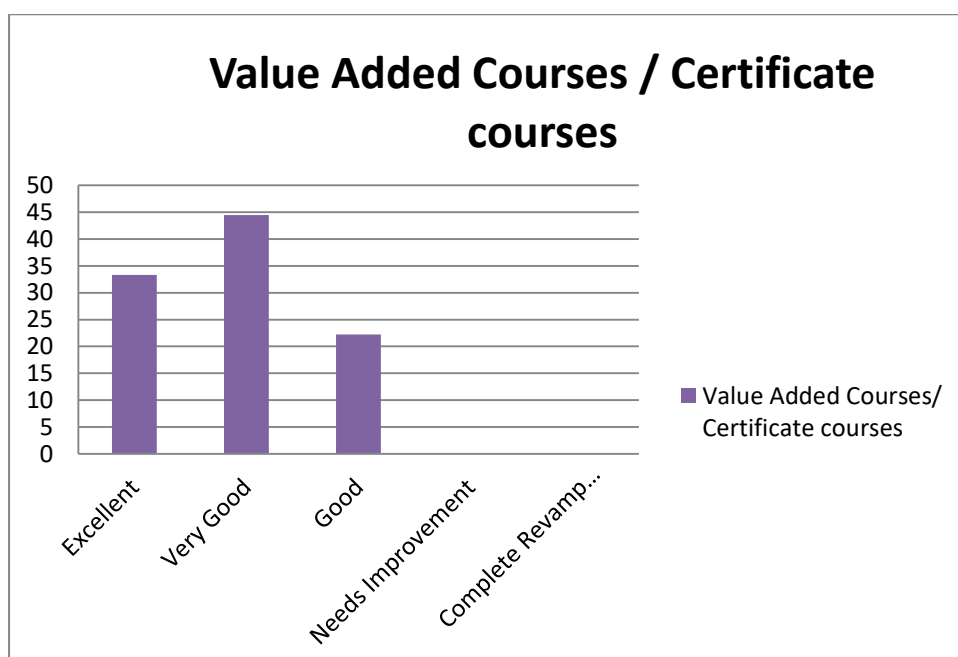

From the feedback collected from the parents it was observed that, the quality and relevance of course provided to their ward are commented to be excellent and very good by 33% and 55% of the parents, whereas 11% of parents have commented it to be good.

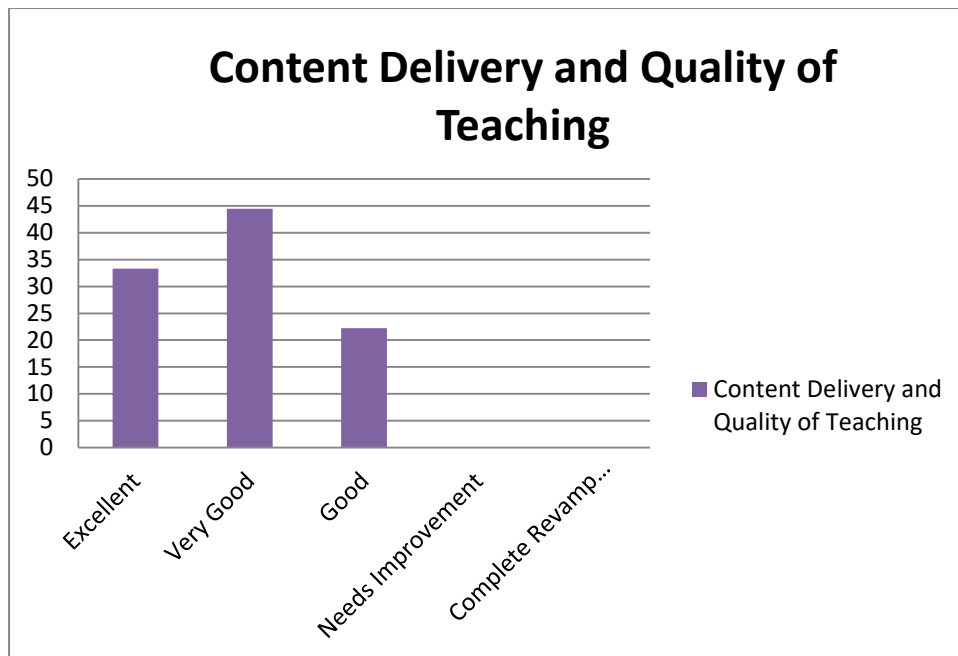

The effectiveness of the ambience and infrastructure of the college are found to be excellent and very good by 33% and 45 % of parents, while 22% have mentioned it as good.

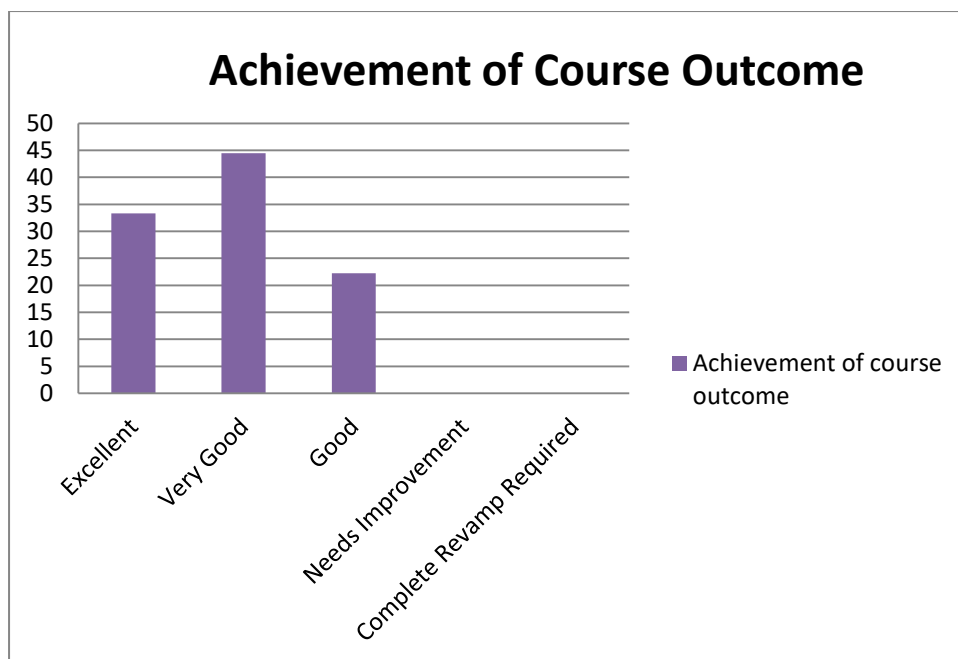

Most (44%) of the parents feel that the course provided are relevant to the latest industry needs are excellent, 33% of parents feels it to be very good and the remaining 22% feels it to be excellent.

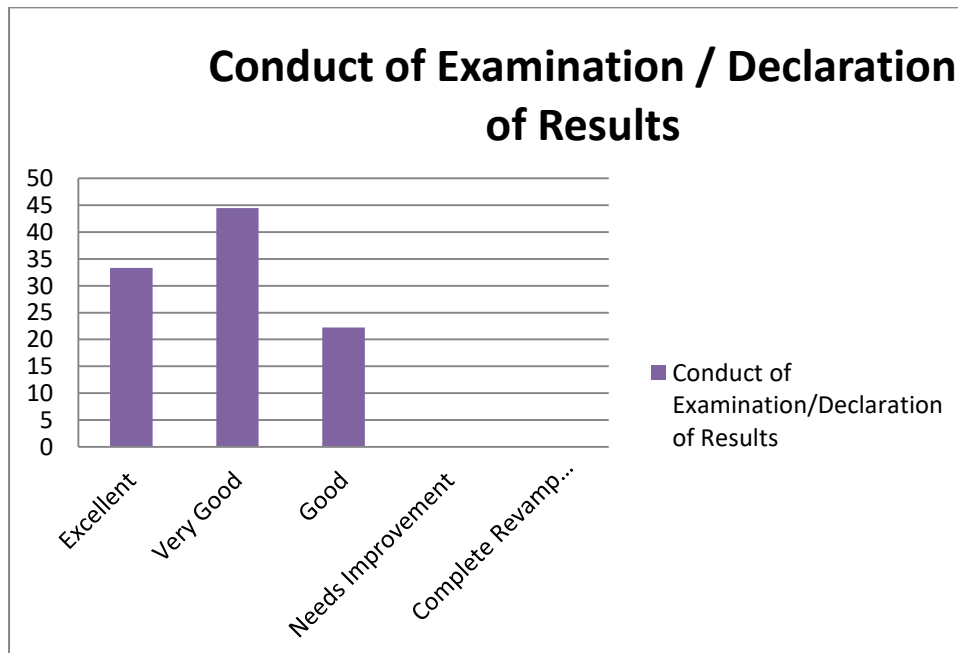

The value added course and certificate courses offered helps in placement are found to be excellent by most (56%)of the parents , 44% of the feels it to be very good.

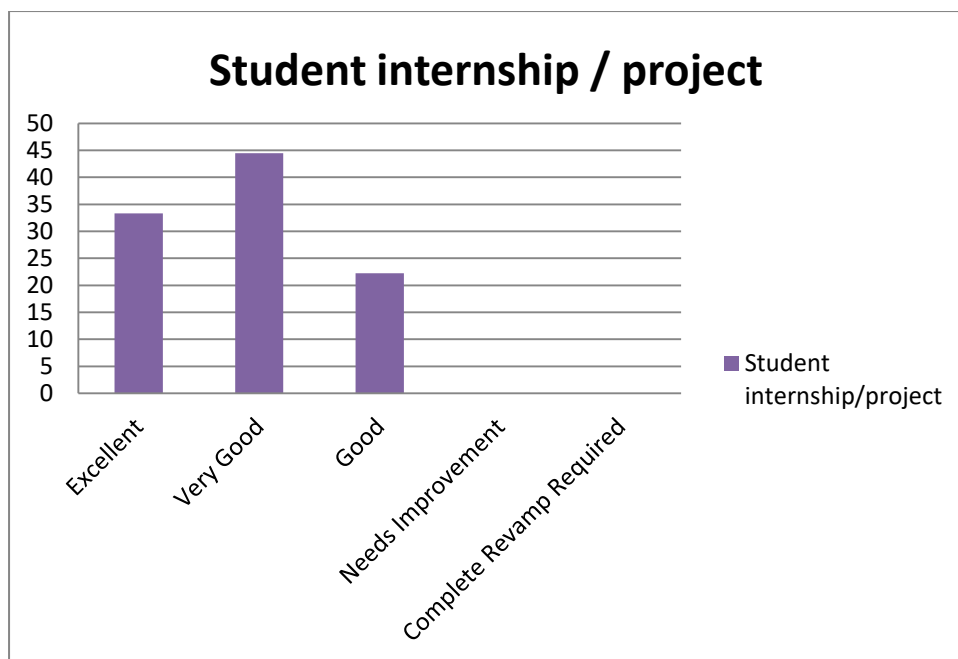

The content delivery and quality of teaching are found to be excellent y 44% of parents while 55% of them feel it as very good.

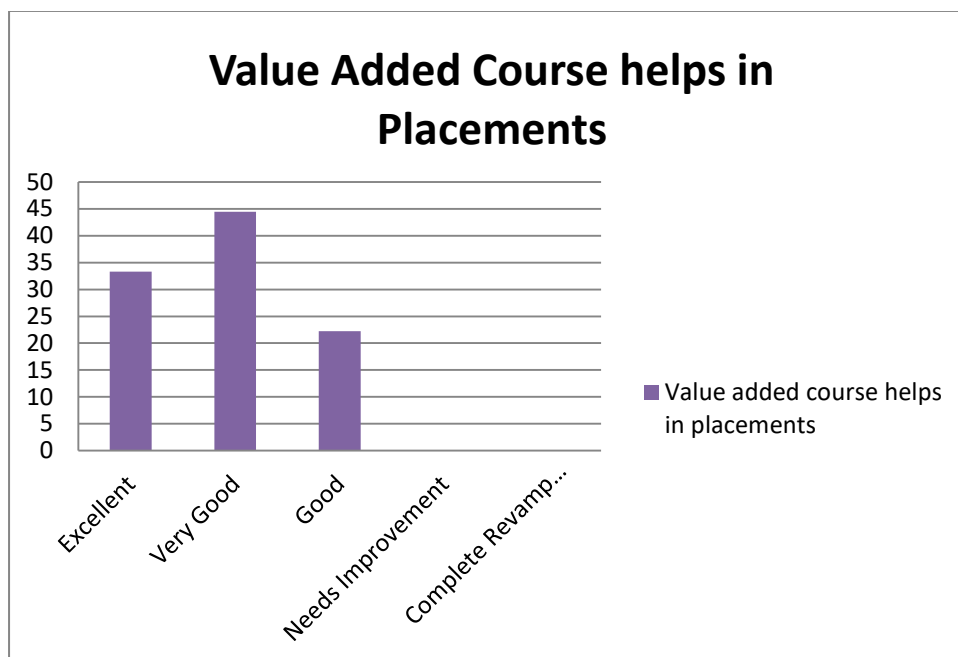

The outcomes have been achieved by their ward are found to be very good by most (56%) of the parents, While 33% are feeling it as excellent and 11% feels need improvement.

The conduct of examination are commented to be excellent, very good and good by (33%) each.

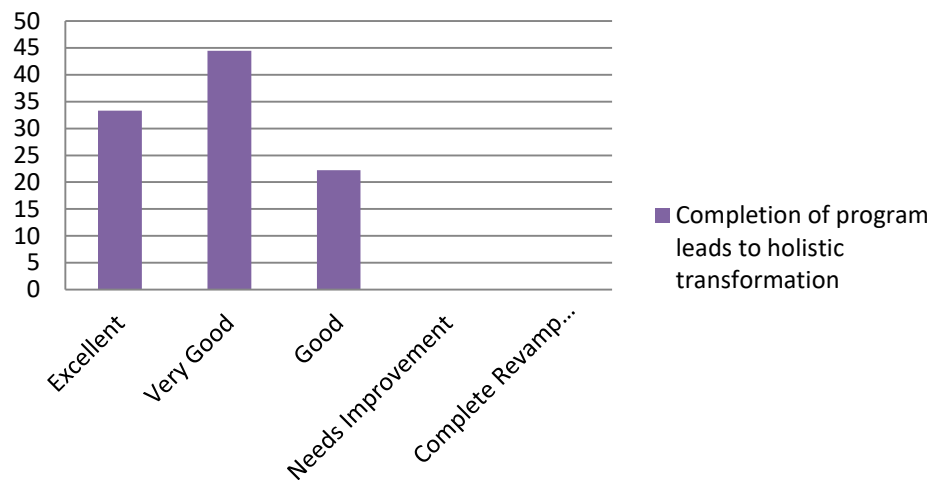

Most (44%) of the parents feel that the students internship and project are Very good and 33% feels excellent 22% feels good.

Value added course helps in placement are commented very good and excellent by 67% and 22% of parents and the remaining 11% feels it as good.

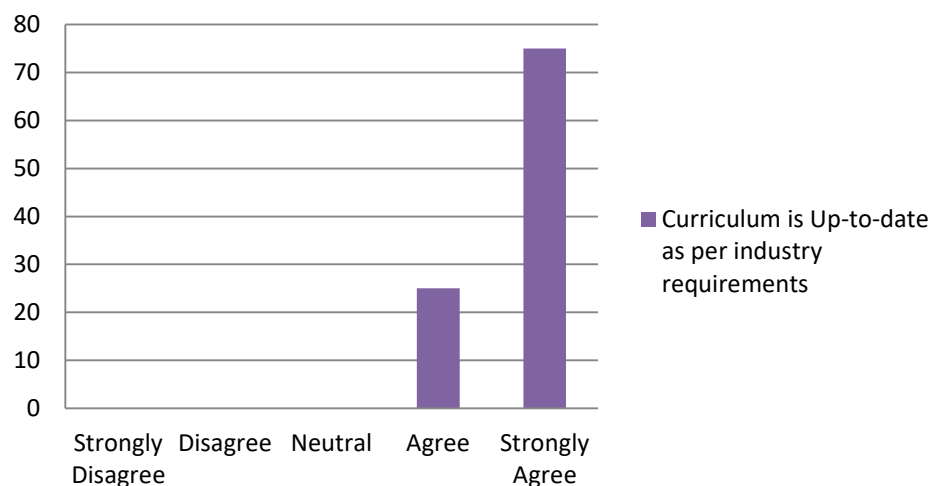

Completion of program leads to holistic Transformation

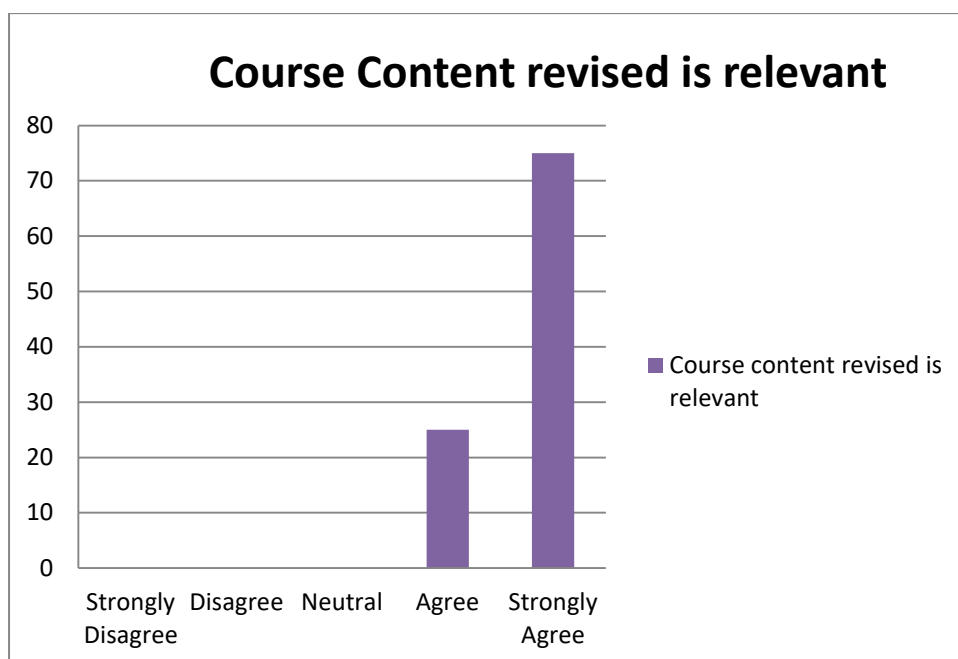

After completing the program students can get an holistic transformation are rated excellent and very good by 33% and 44% of parents, while the remaining 22% rated it as good.

Feedback from Alumni

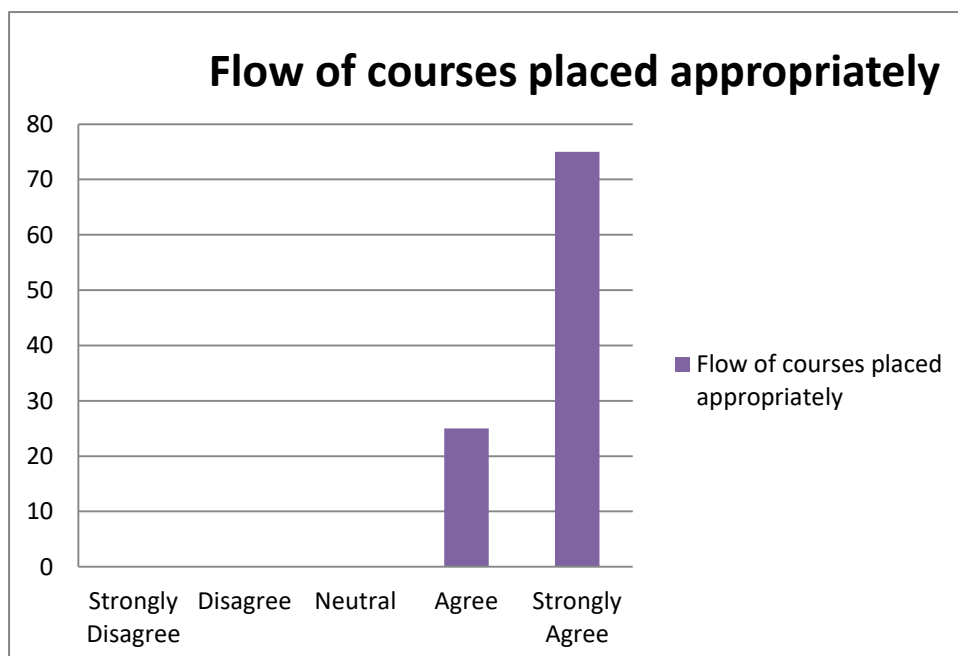

Curriculum is Up-to-date as per Industry Requirements

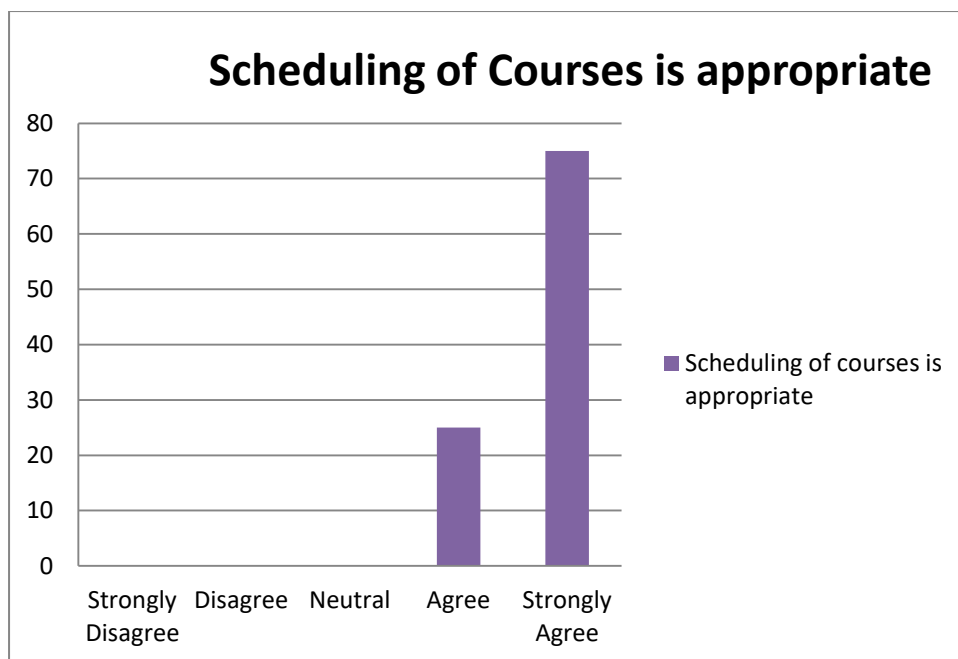

The course content in the curriculum is up to date as per the industry requirements is agreed and strongly agreed by 25% and 75% of the alumni.

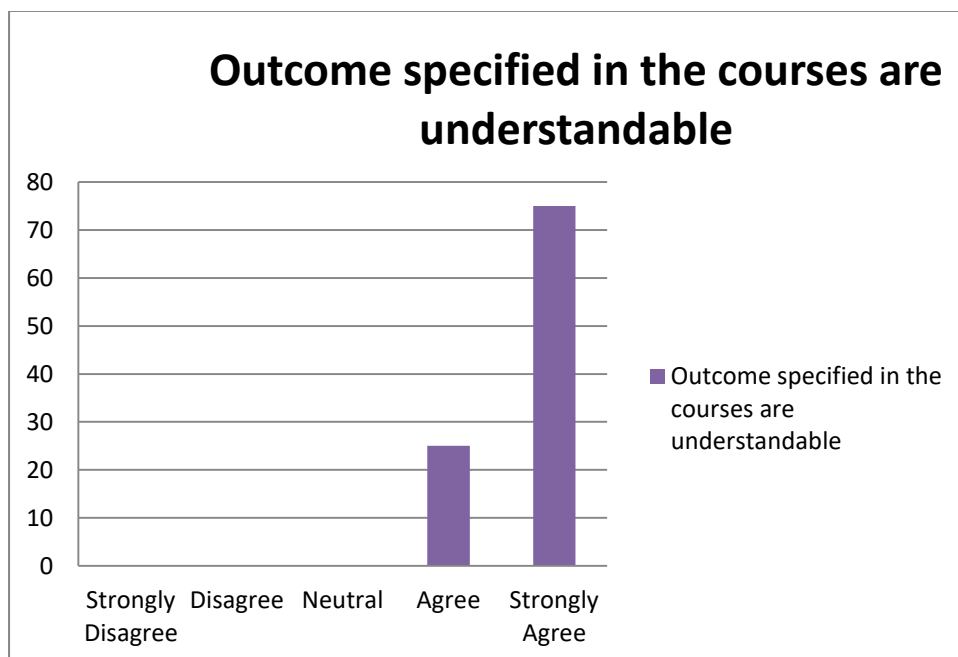

The course content revised is relevant to the intended learners is agreed and strongly agreed by 26% and 74% of the alumini.

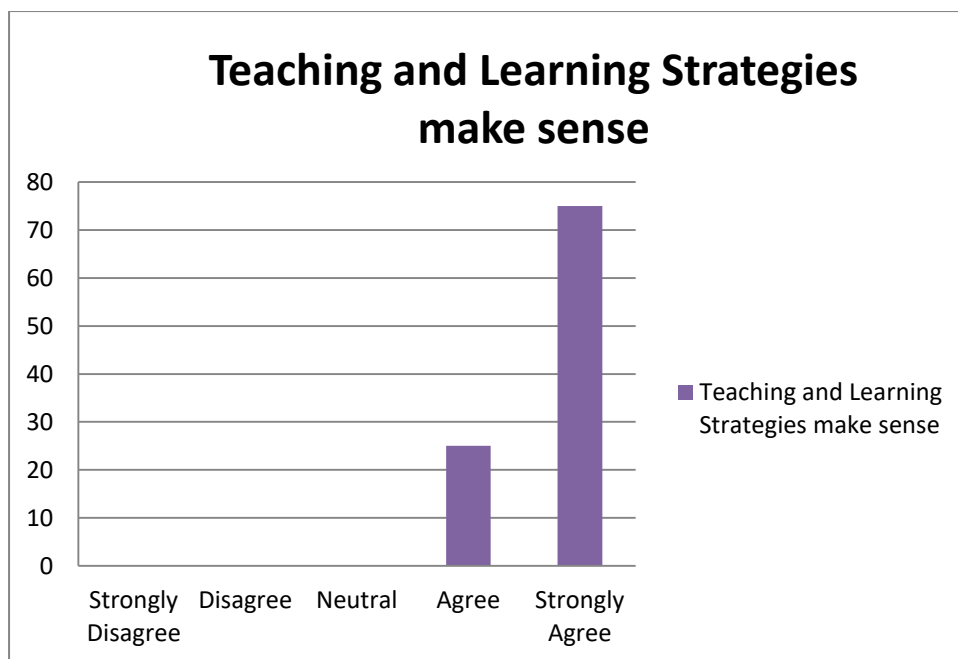

The flow of courses placed appropriately throughout the programme is agreed and strongly agreed by 28% and 72% of the alumini.

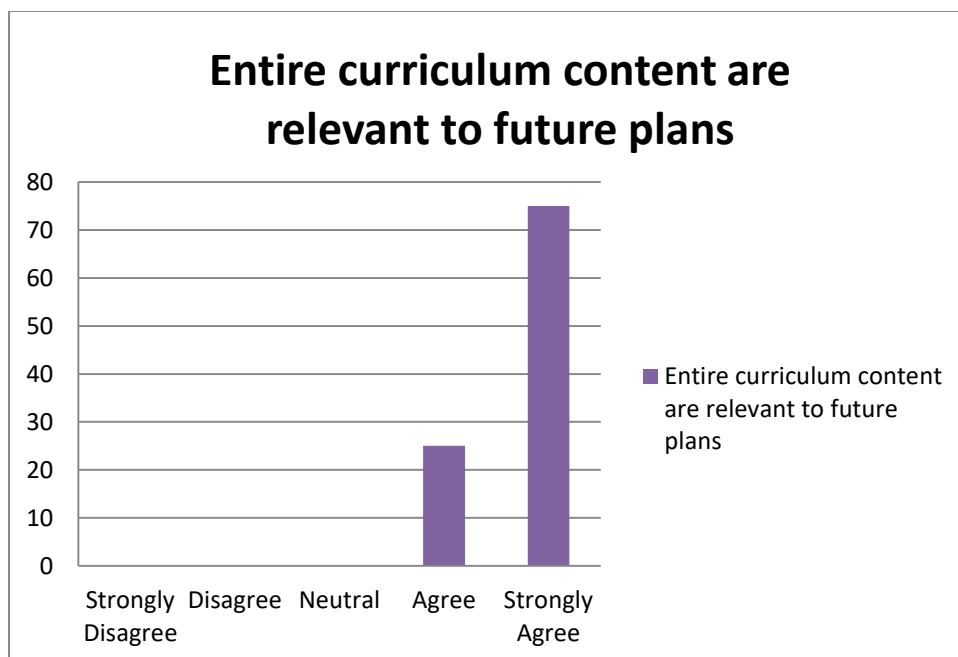

The scheduling of the courses is appropriate in the semester pattern is agreed and strongly agreed by 25% and 75% of the alumini.

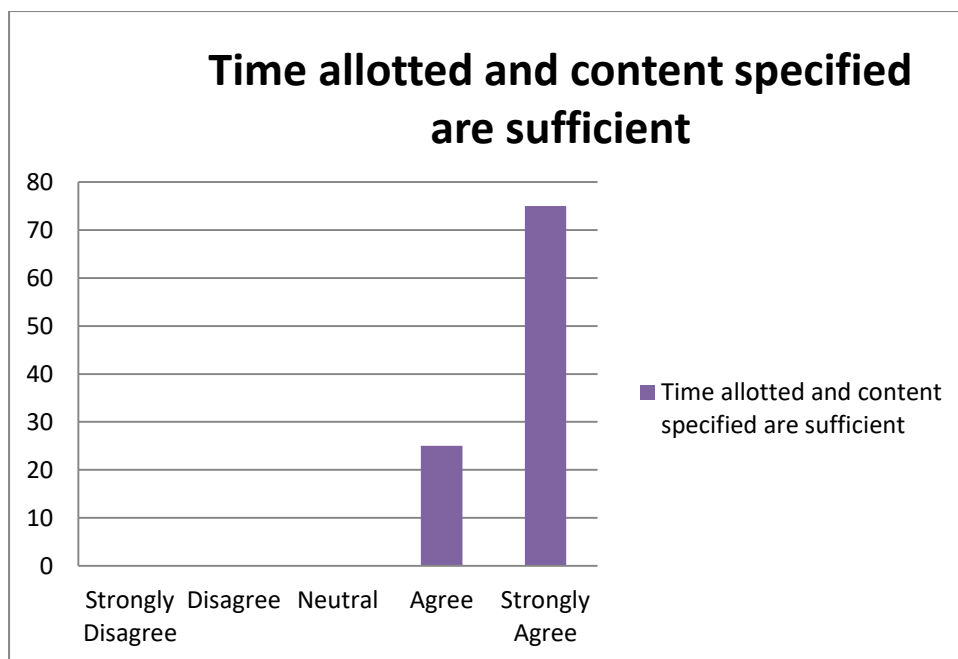

The Outcome specified in the courses are understandable by the students is agreed and strongly agreed by 25% and 75% of the alumini.

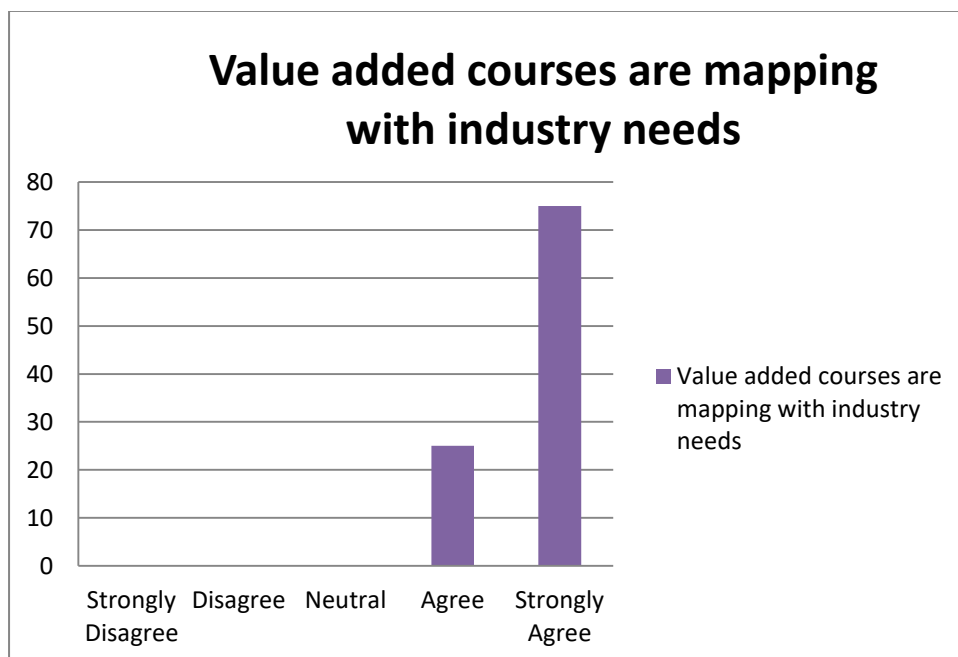

The Teaching and Learning Strategies make sense is agreed and strongly agreed by 25% and 75% of the alumini.

The Entire curriculum content are relevant to future plans of the students is agreed and strongly agreed by 25% and 75% of the alumini.

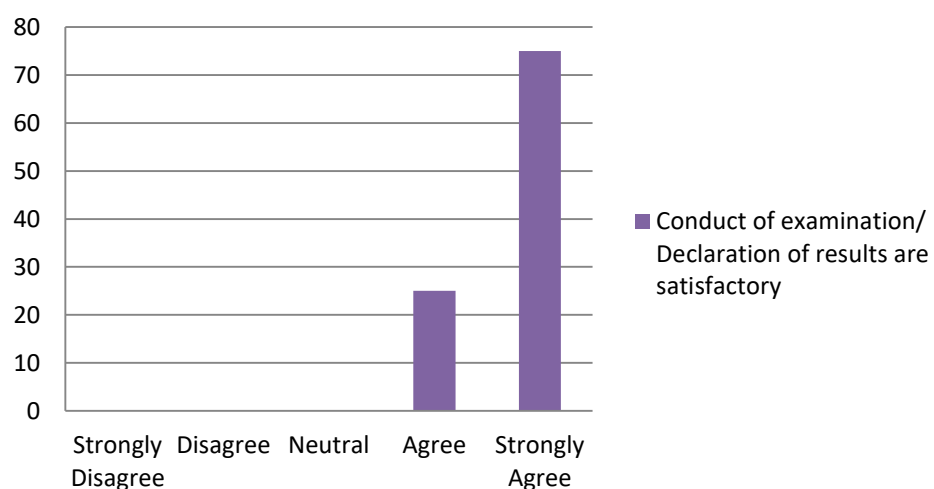

The Time allotted and content specified in the lab exercises for practical courses are agreed and strongly agreed by 25% and 75% of the alumini.

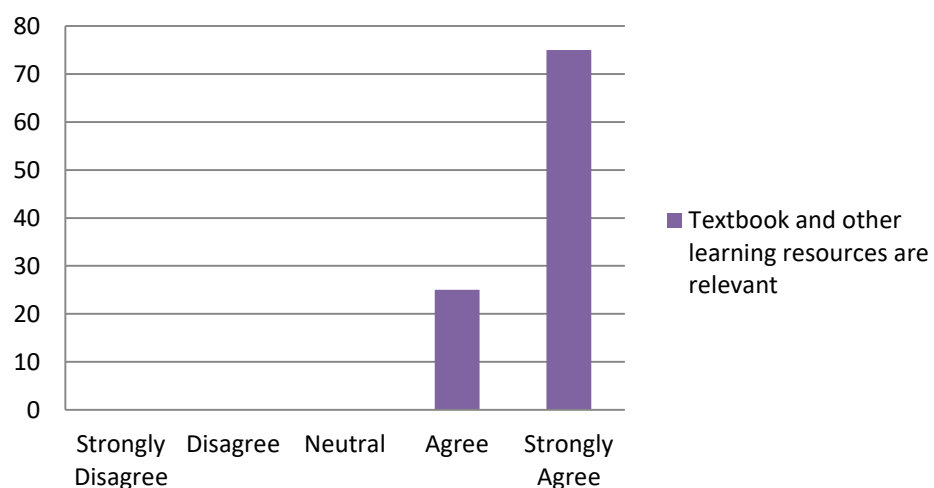

The Value added courses are mapping with industry needs is agreed and strongly agreed by 25% and 75% of the alumini.

Conduct of Examination/Declaration of results are satisfactory

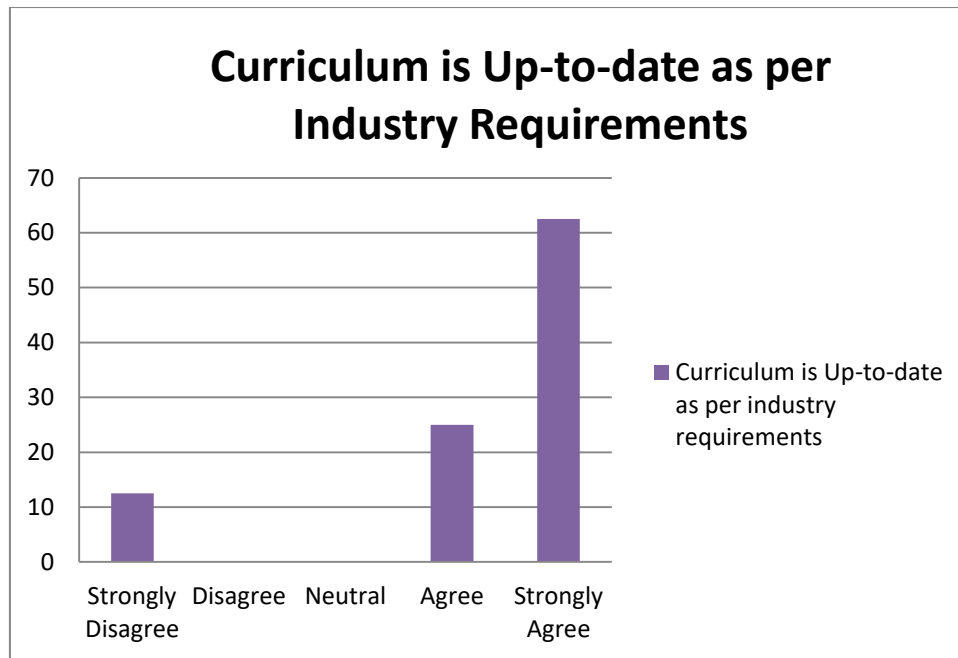

The Conduct of Examination and Declaration of results are satisfactory is agreed and strongly agreed by 25% and 75% of the alumini.

Textbook and other learning resources are relevant

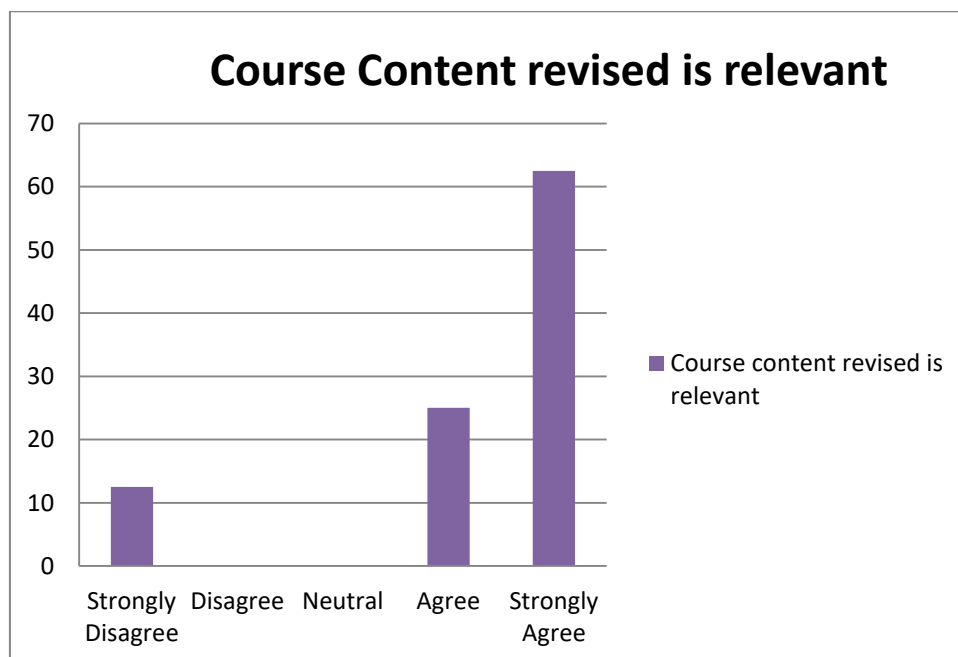

The Textbook and other learning resources are relevant is agreed by 25% and 75% of the alumini.

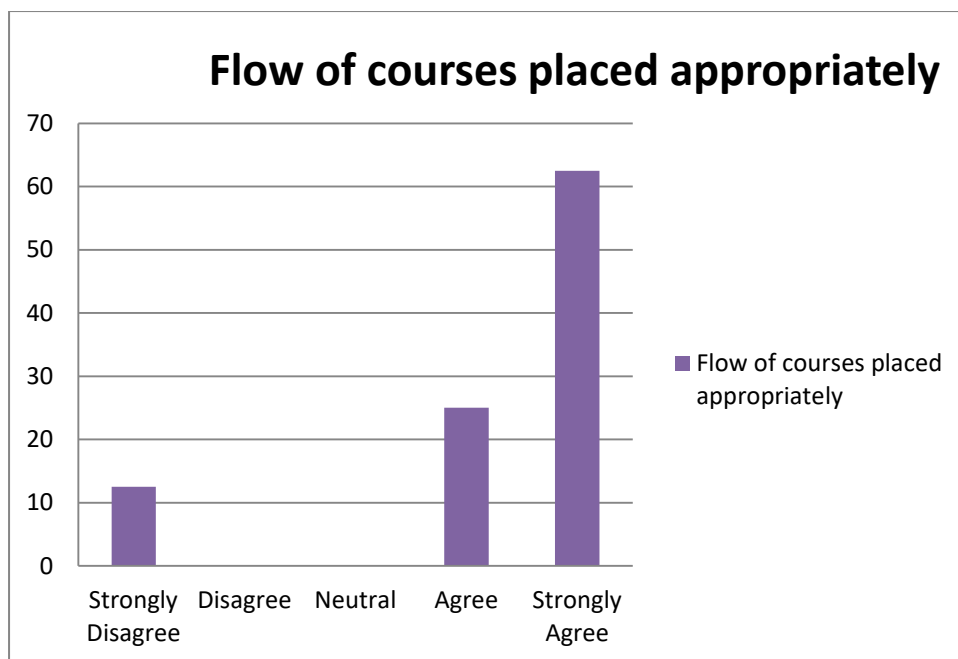

FEEDBACK FROM STUDENTS

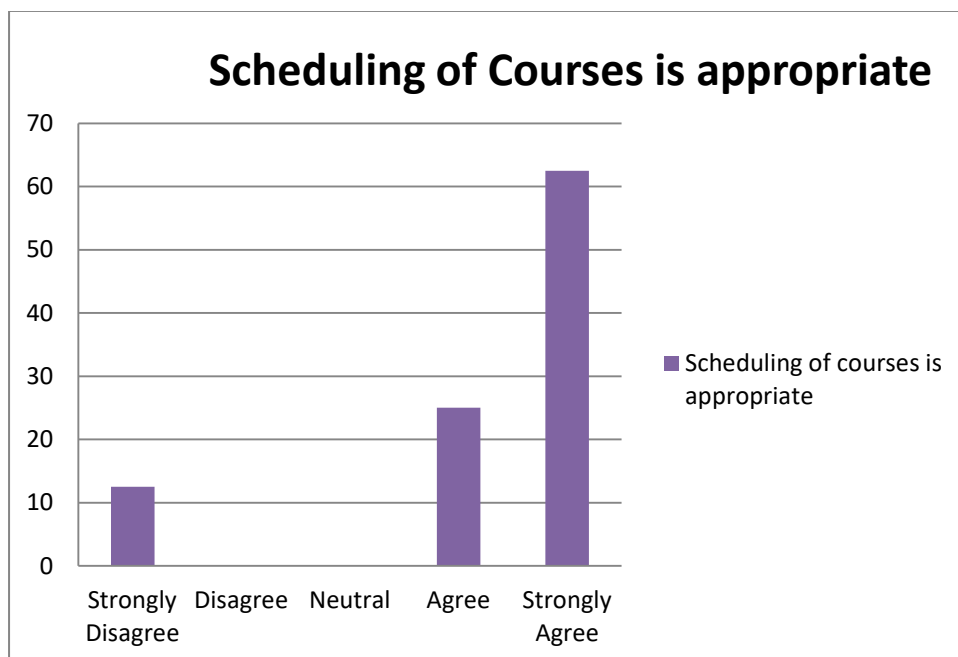

From the feedback received from the students we observe that, most of the students (75%) strongly agree to the statement that the curriculum is up-to-date as per industry requirements.

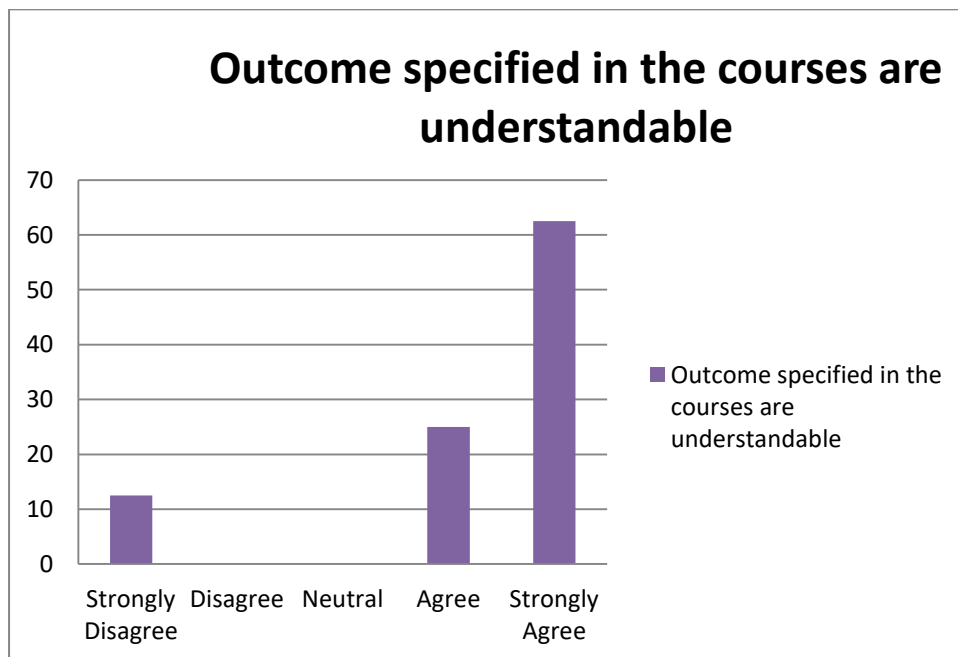

Most of the students (75%) strongly agree to the statement that the course content revised is relevant. Only 12.5% of students doesn't agree to this statement.

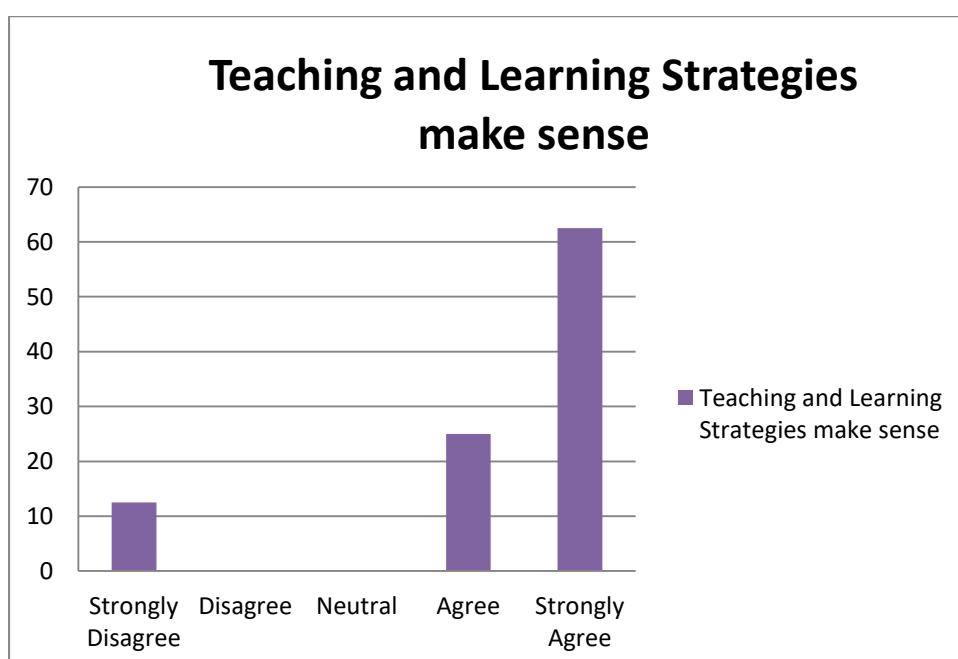

The Flow of courses are placed appropriately in the curriculum is strongly agree by most of the students only very few disagree to it.

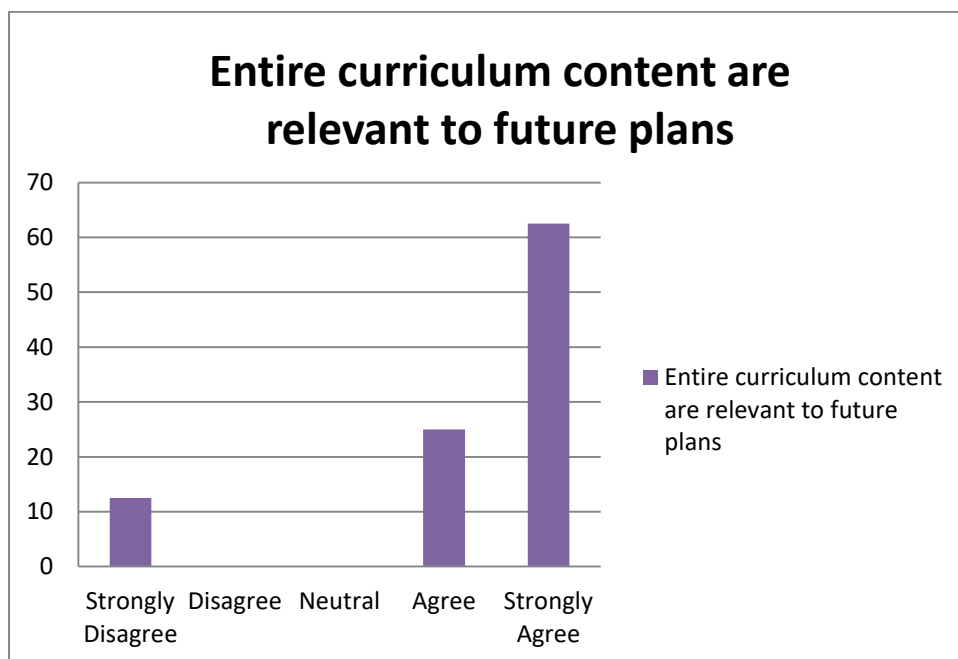

The scheduling of the courses is appropriate in the semester pattern is agreed and strongly agreed by 26% and 62% of the students and the remaining 12% strongly disagreed.

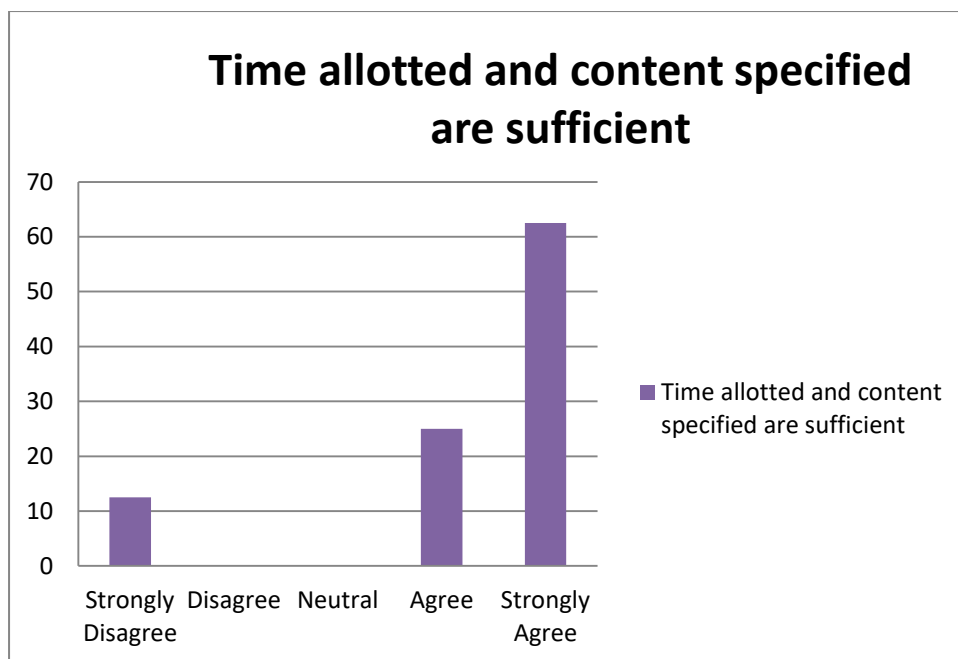

The Outcome specified in the courses are understandable by the students is strongly agreed by most of the students.

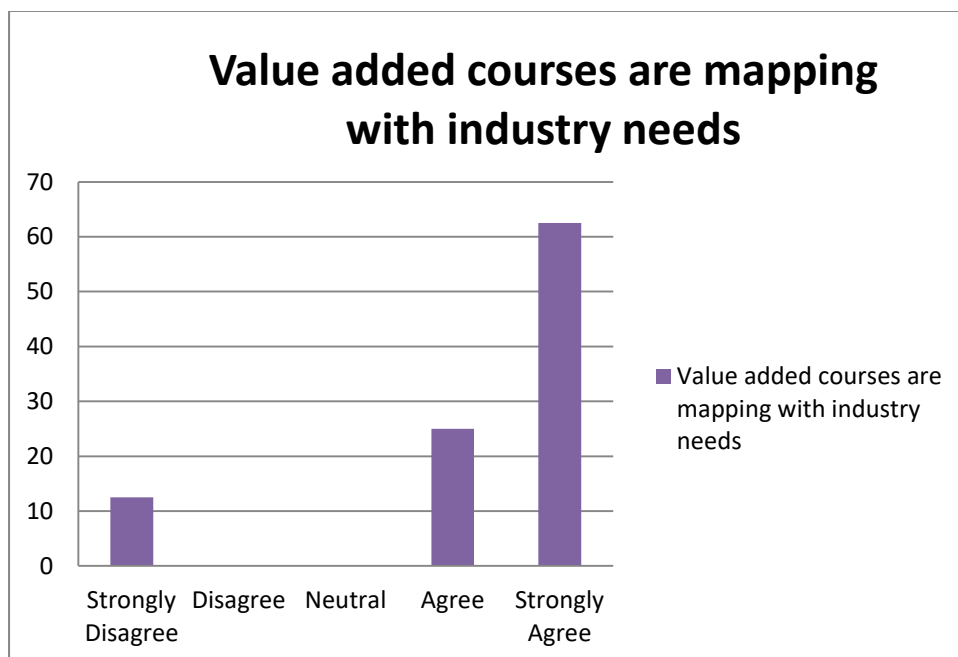

The Teaching and Learning Strategies make sense is strongly agreed by most of the students.

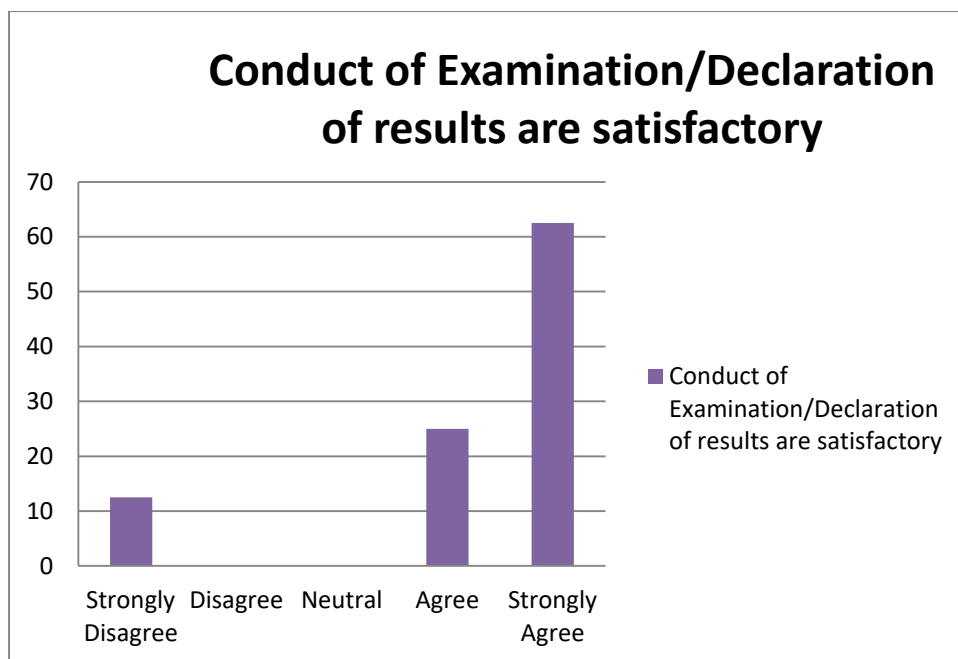

The Entire curriculum content are relevant to future plans of the students is agreed and strongly agreed by most of the students.

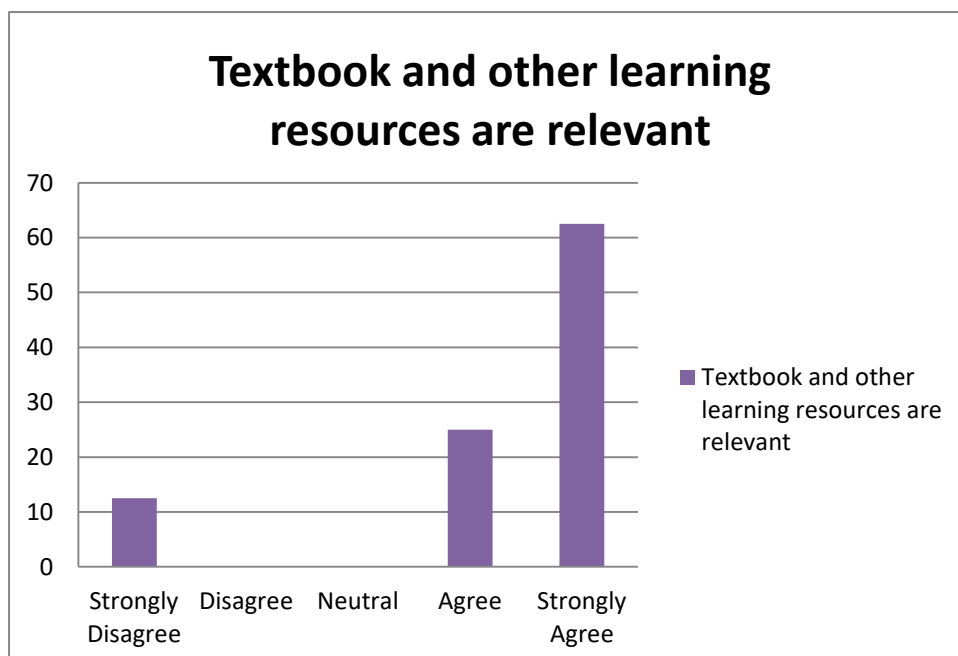

The Time allotted and content specified in the lab exercises for practical courses are agreed and strongly agreed by most of the students.

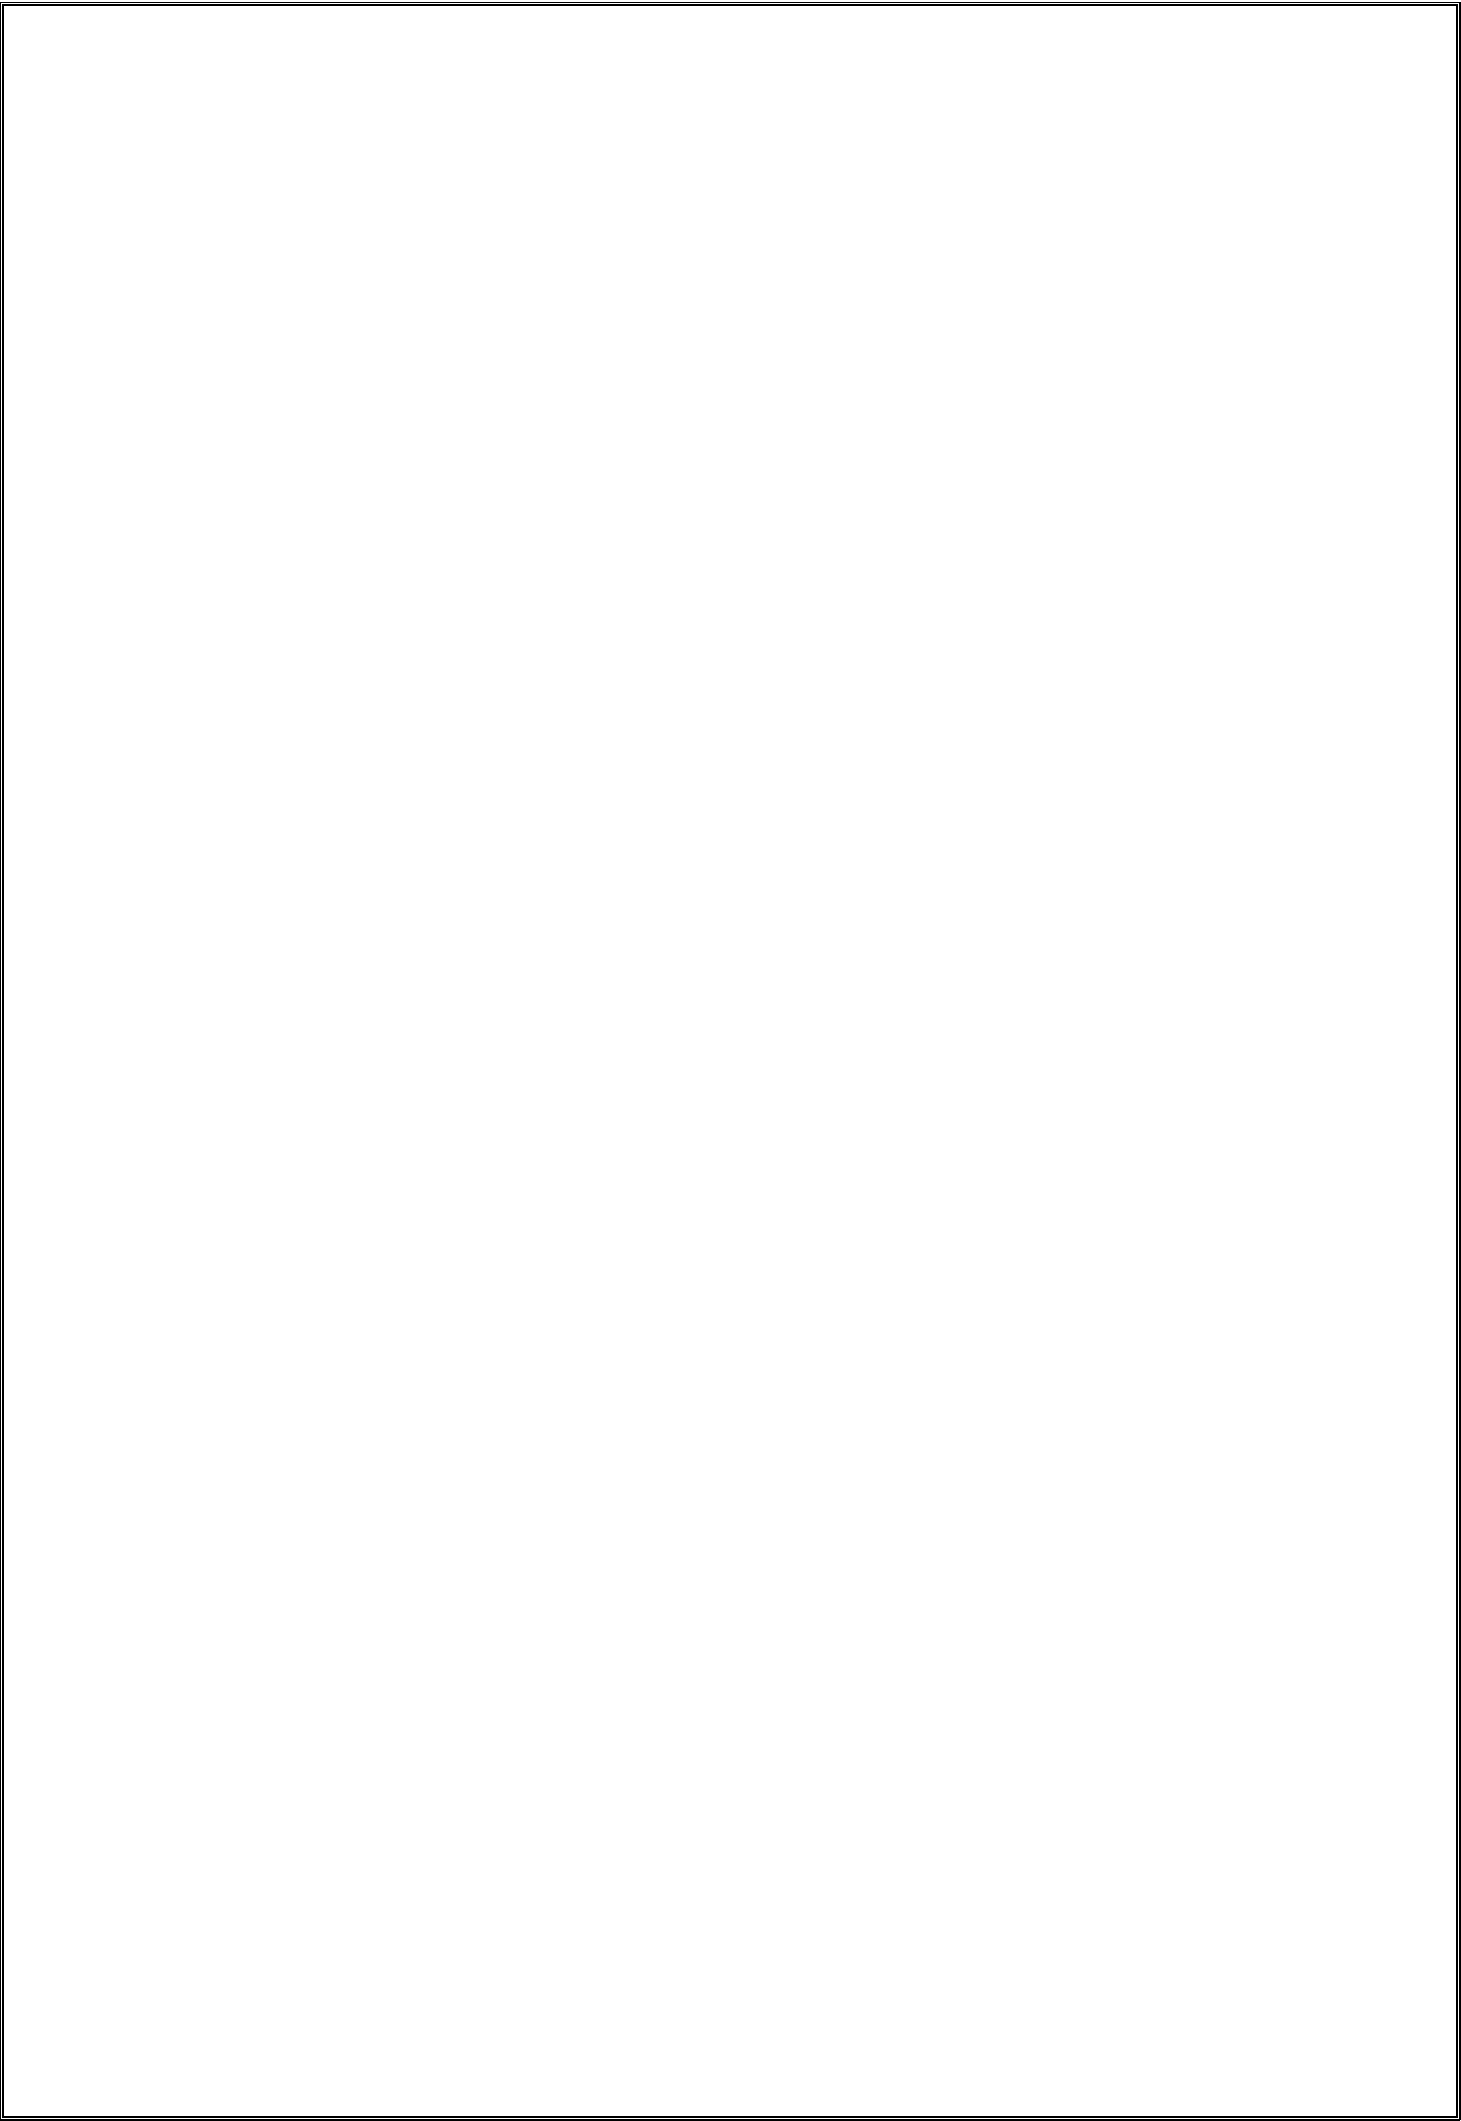

The Value added courses are mapping with industry needs is agreed and strongly agreed by most of the students.

The Conduct of Examination and Declaration of results are satisfactory is agreed and strongly agreed by most of the students.

The Textbook and other learning resources are relevant is agreed by most of the students. And very few disagreed the statement.

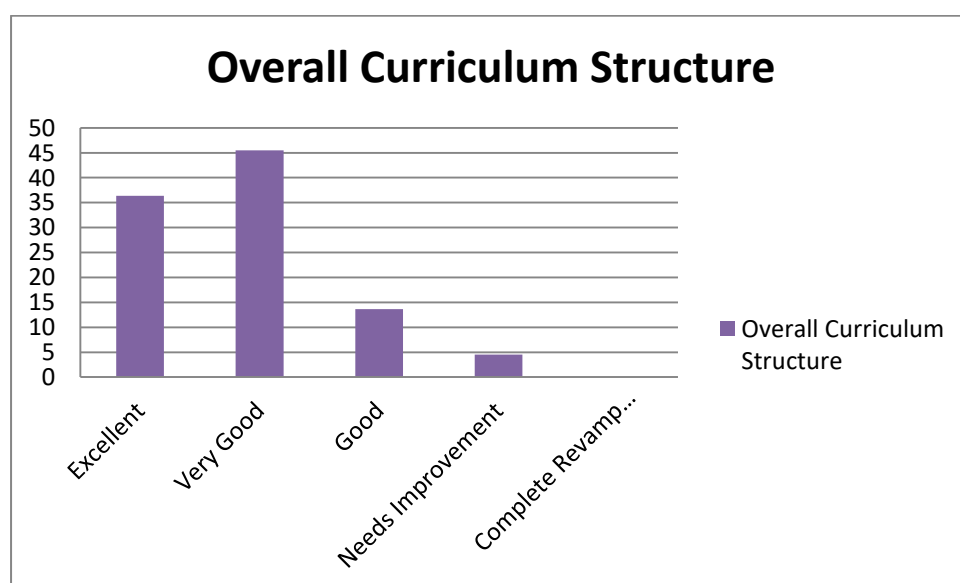

EVEN SEMESTER

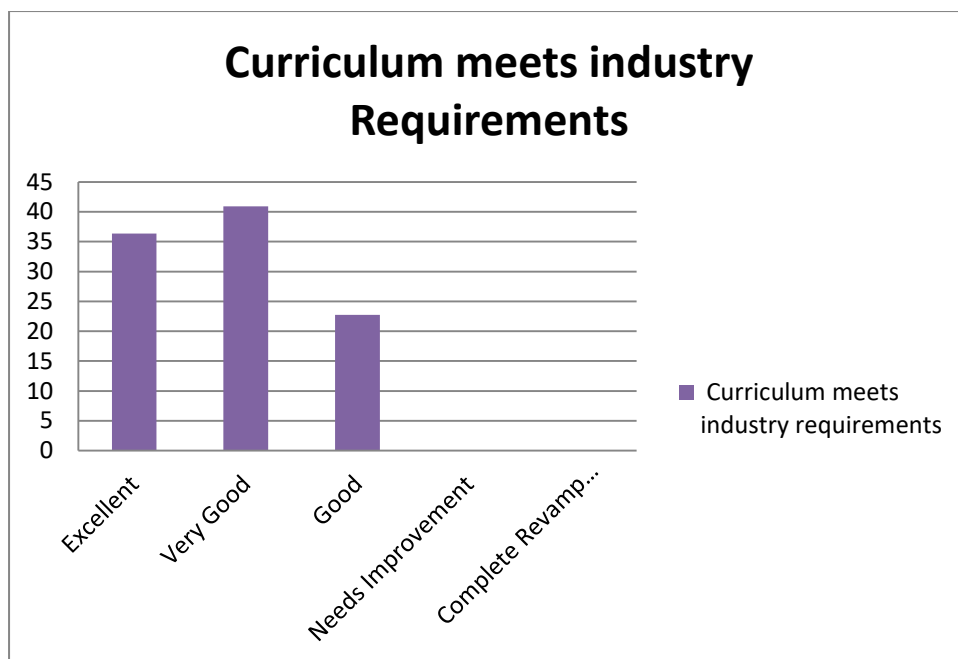

Feedback Analysis Report for the Academic Year 2021-22 (Even Semester)

Feedback from all the stakeholders were received during the Board of Studies and are analysed, the feedback analysis reveal the following.

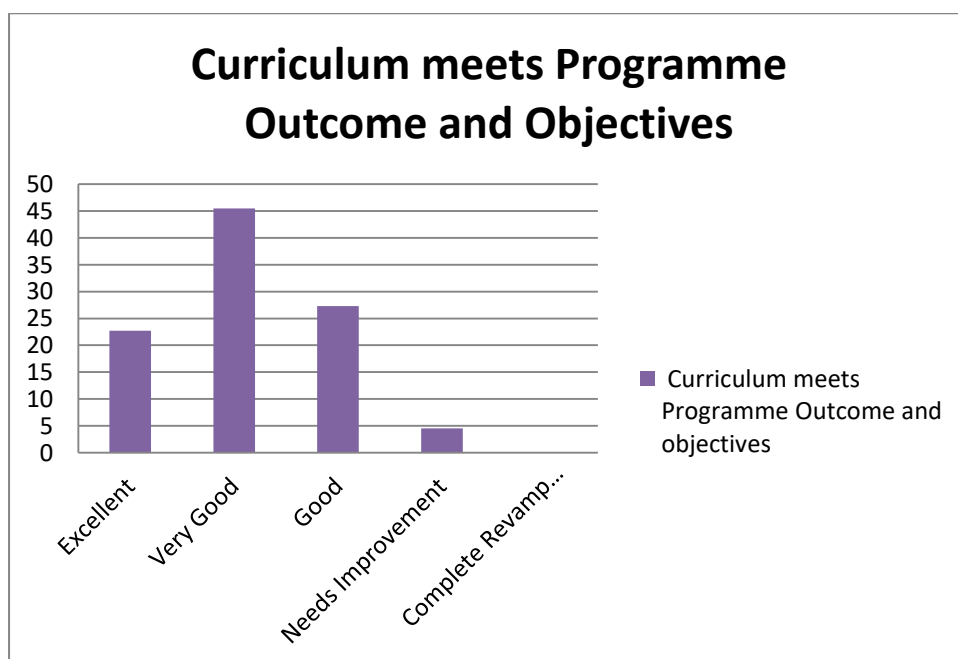

FEEDBACK FROM TEACHERS (University Nominees & Subject experts)

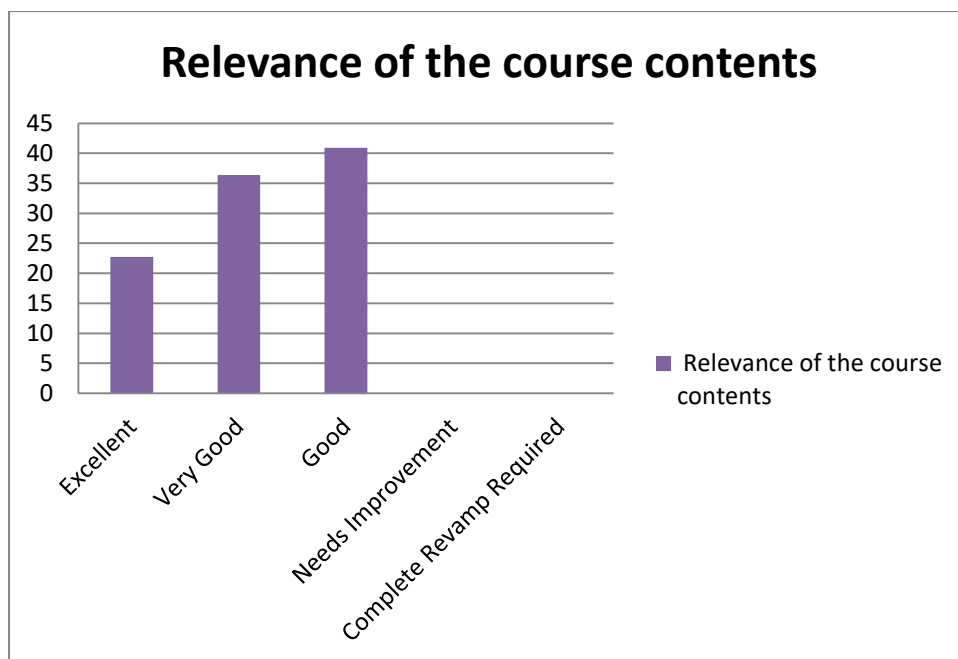

From the feedback received from teachers ((University Nominees & Subject experts), it was observed from the chart that more than 45% of teachers have informed that the overall curriculum structure of programs offered are Very good and more that 36% of the teachers have appreciate to be excellent and 13% of the teachers reported it to be good.

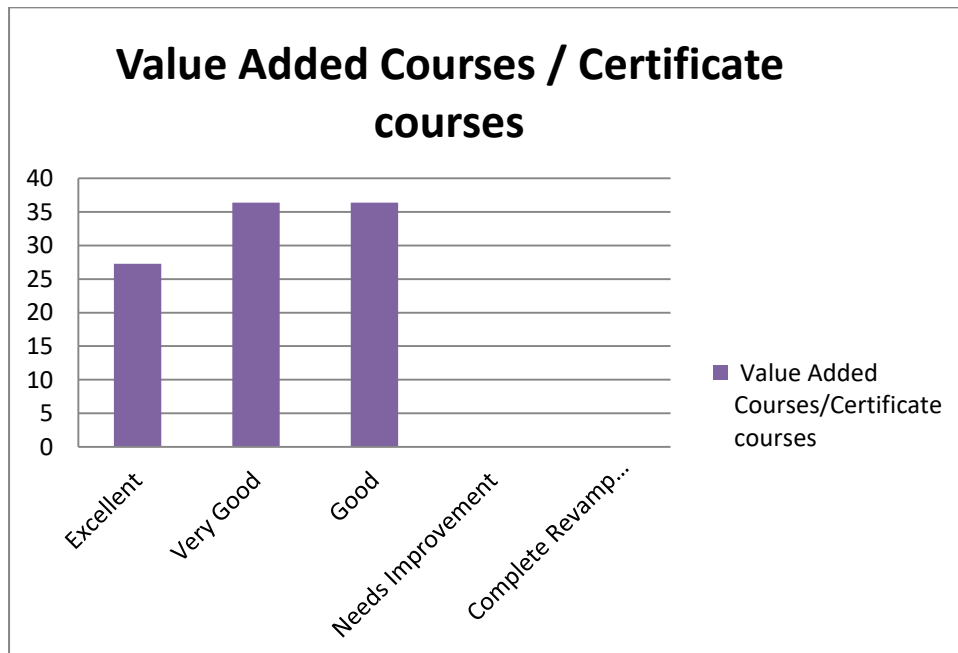

The above chart represents that more than 41% of the teachers certify it to be very good that the curriculum meets industry requirements, 36% of teachers appreciate it to be excellent and 23% of teachers accept it to be good.

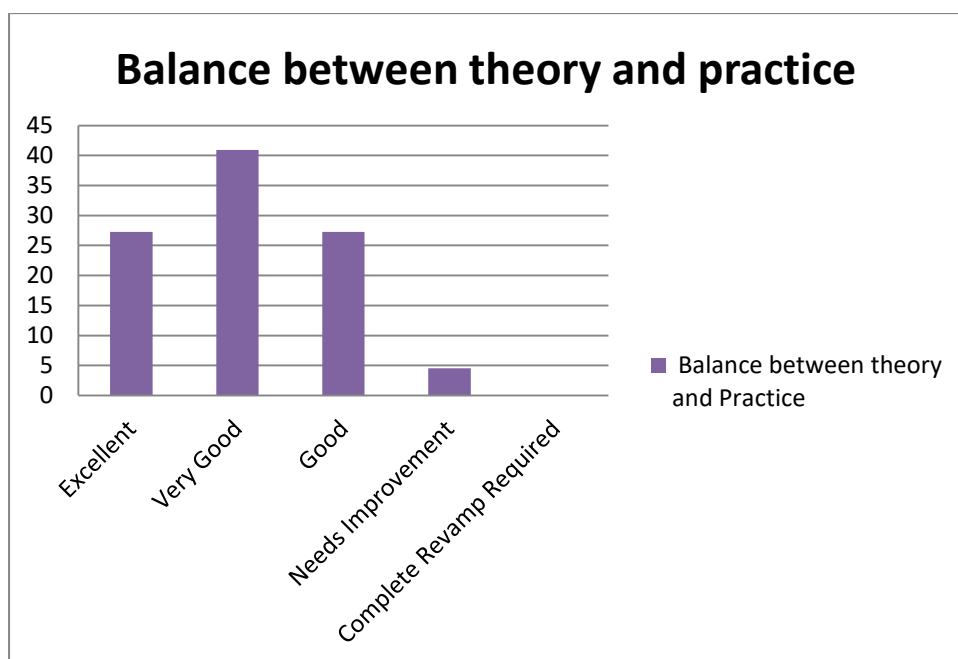

For the question whether curriculum meets the Program outcome and objective more than 45% of the teachers commented it to be very good, around 23% of teachers have commented it to be excellent and 27% have accepted it as good.

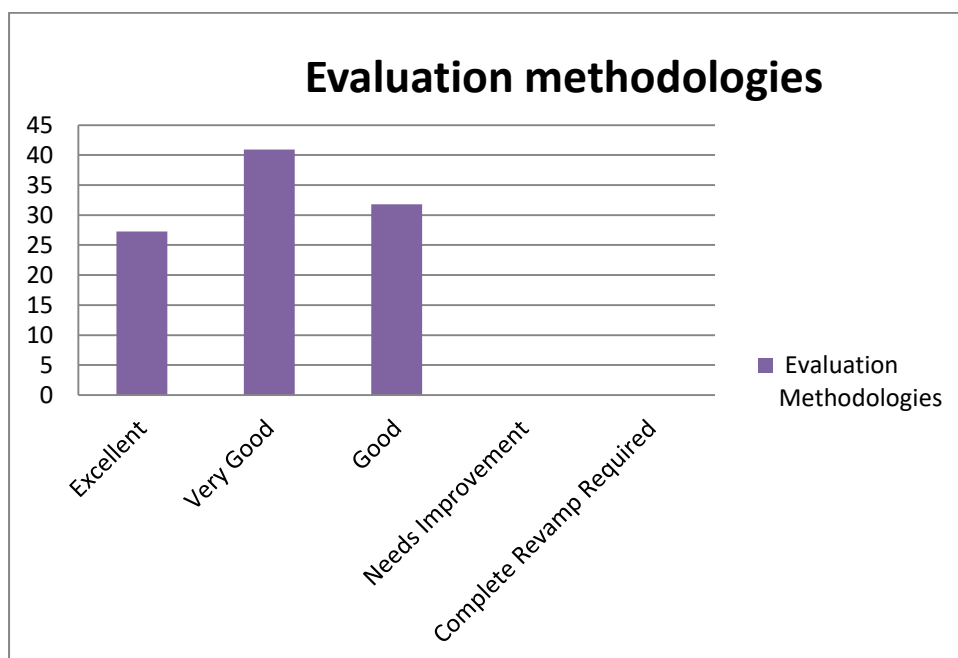

Regarding the relevance of course contents 36% of teachers have ranked it to be very good, 23% have ranked it to be excellent and 41% have commented it to be good.

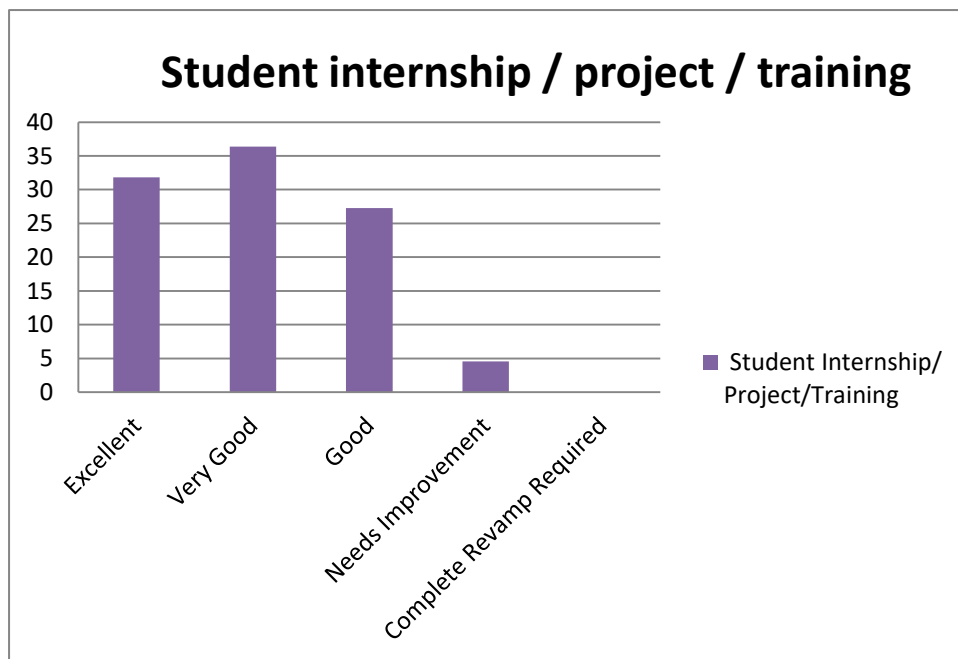

From the chart it is clear that the teachers have certified that the Value added courses and Certificate courses are relevant, 36% of the majority of teachers commented it to be good, 27% have commented it to be excellent and 36% have commented it as Very good.

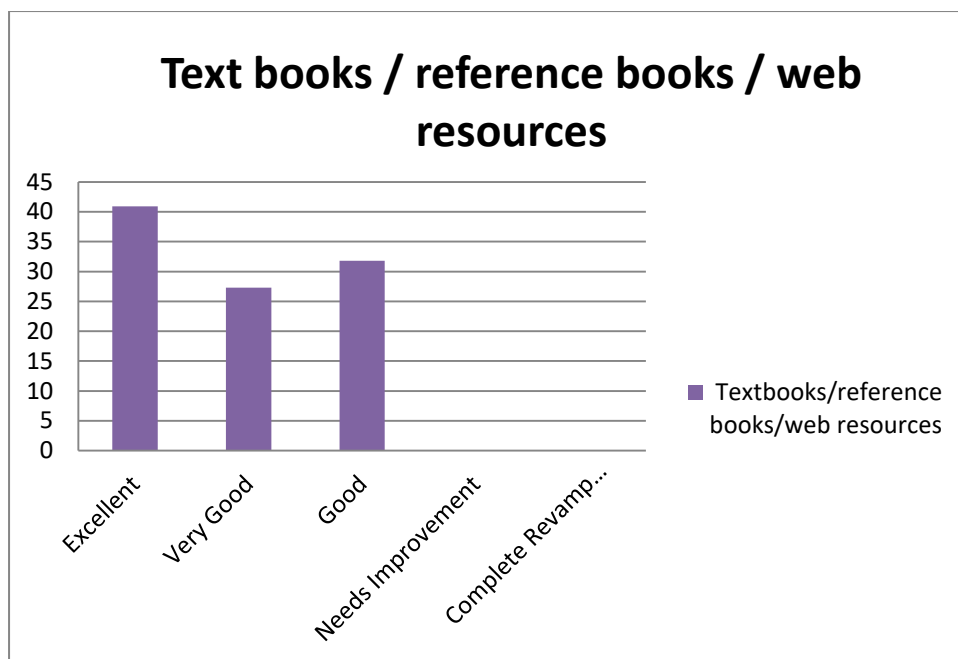

For the question whether there is balance between theory and practice, in the curriculum structure, most (41%) of the teachers have reported it to be very good, 27% have reported it to be excellent and remaining (27%) have reported it as good.

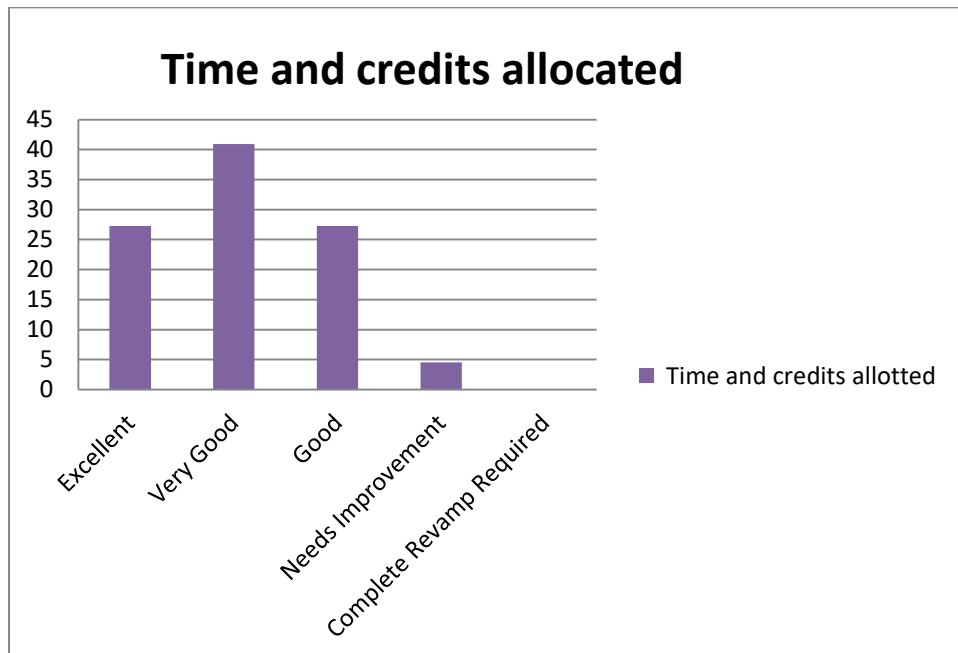

Regarding the evaluation methodologies adopted most (41%) of the teachers commented the practice followed is Very good, 32% of teachers commented it as good and 27% of teachers commented it to be excellent.

Most (36%) of the teachers have certified that students internship and project provided are very good, 32% of the teachers certified it to be excellent and 27% certified it to be good.

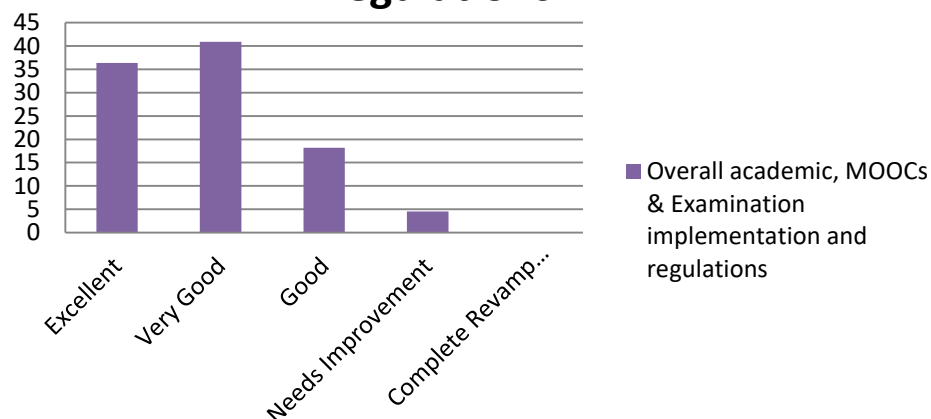

Text book/reference books/web sources are adequate for content delivery is ranked as Very good by (27%) of the teachers, 31% have ranked it as good and 41% of the teachers ranked it to be excellent.

For the question related to credit allocation most (41%) of the teachers have commented it as very good, 27% as good, 27% as excellent and only 5% have commented it as needs improvement.

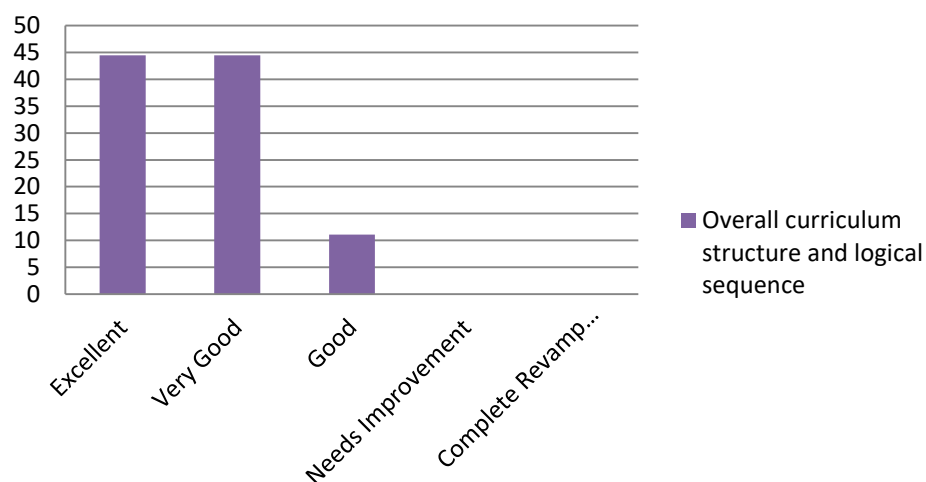

Overall Academic, MOOCs & Examination implementation and regulations

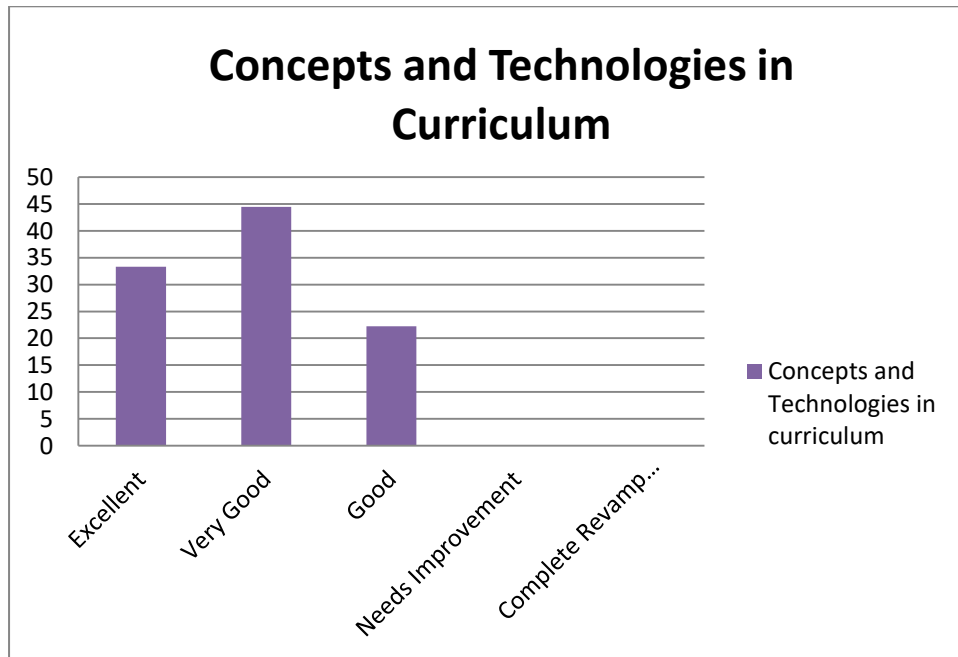

The overall academic, MOOC's and examination implementation and regulation are found to be very good by most (41%) of the teachers, 18% found it to be good and 36% have found it to be excellent.

FEEDBACK FROM EMPLOYERS (INDUSTRIAL EXPERTS)

Overall curriculum structure and Logical sequence

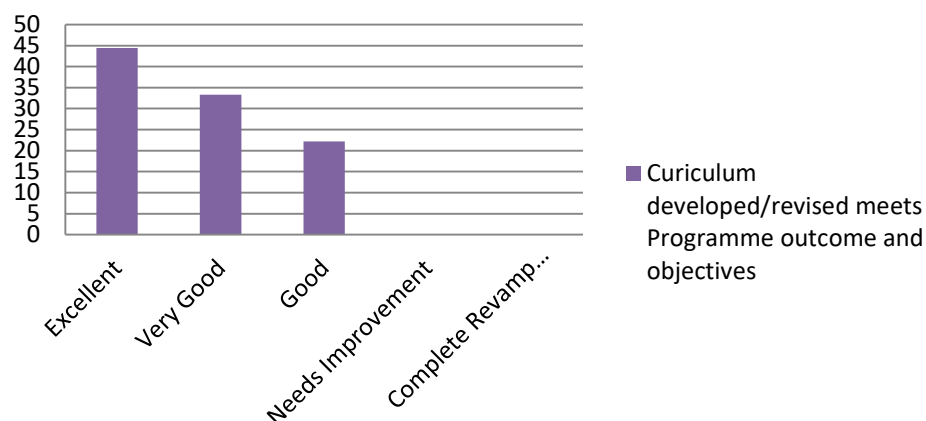

From the feedback received from Employers (Industrial experts), we have observed that the Overall curriculum structure and logical sequence are certified as excellent by most (44%) of the industry experts, 44% of the industry experts have certified it to as very good and only 11% have certified it as good.

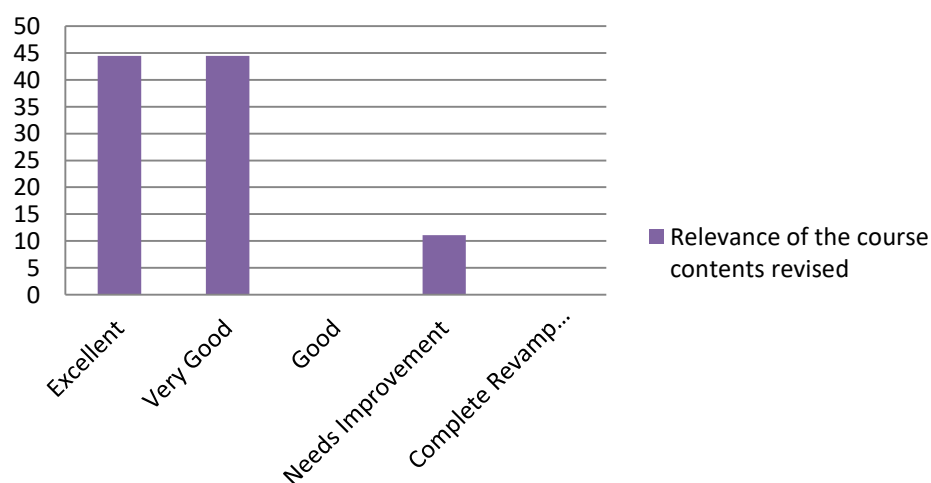

Most (44%) of the industry Experts have answered that the concepts and technologies in curriculum are very good, 33% have found it to be excellent and 22% of industry experts found it to be good.

Curriculum developed / revised meets Programme Outcome and Objectives

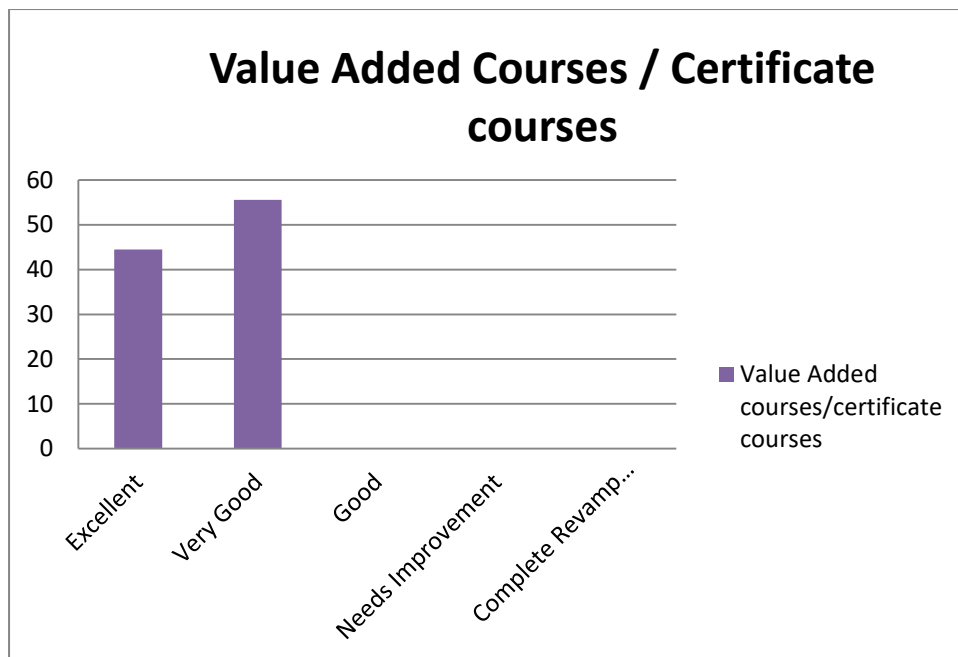

The course content developed meets program outcome are found to be excellent by 44% of the industry experts and Very good by 33% of them and good by 22% of the industry experts.

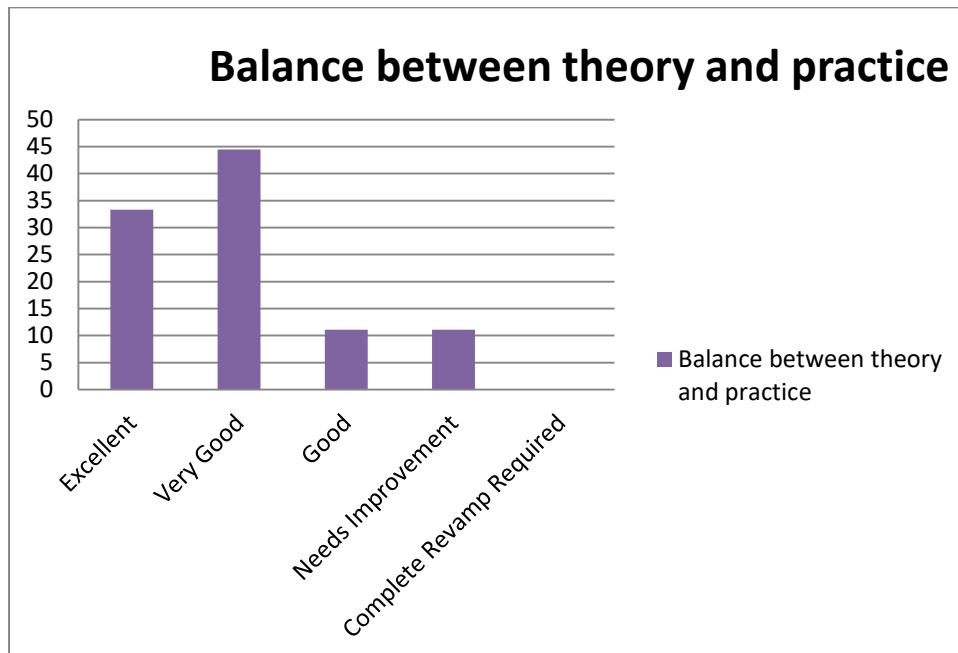

Relevance of the course contents revised

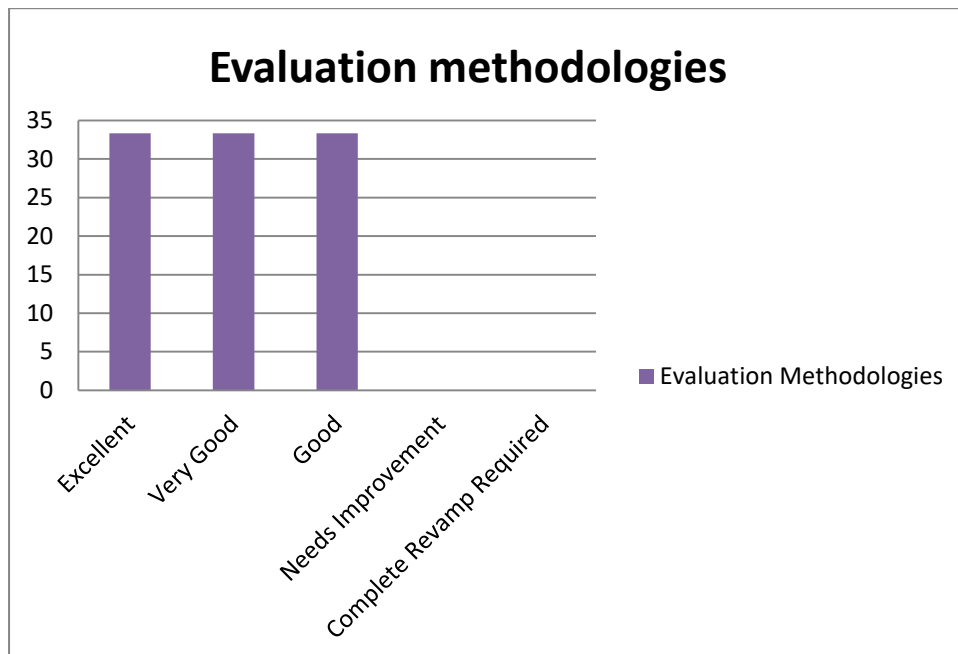

Most(44%) of the industry experts have commented very good for the relevance of course content revised, 44% commented it to be excellent and 11% commented it needs improvement.

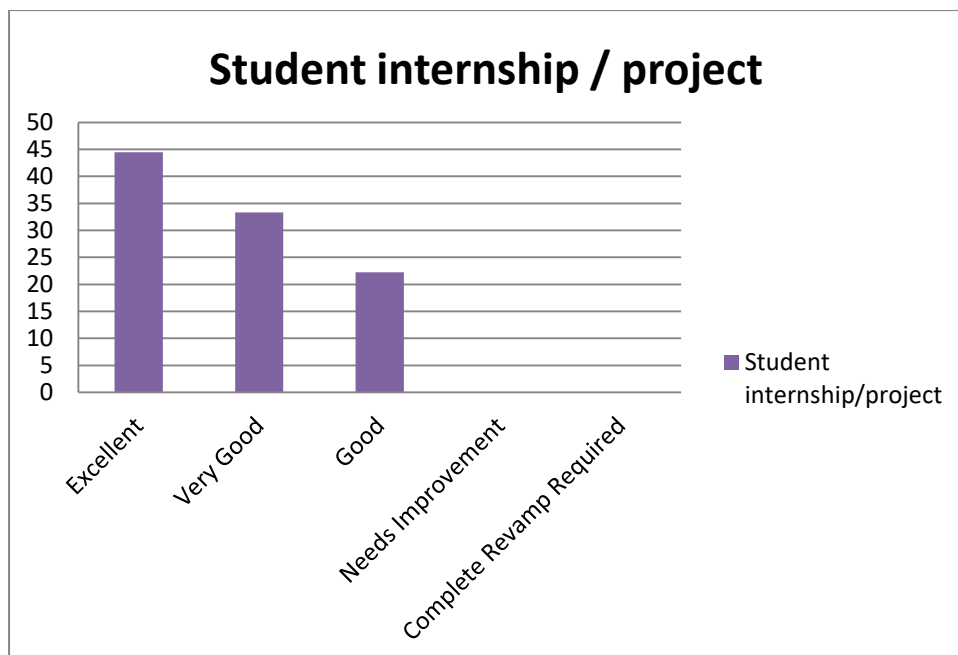

The value added courses and certificates offered by the program in the curriculum are found to be excellent by 44% of the industry experts while remaining 56% have found it to be very good.

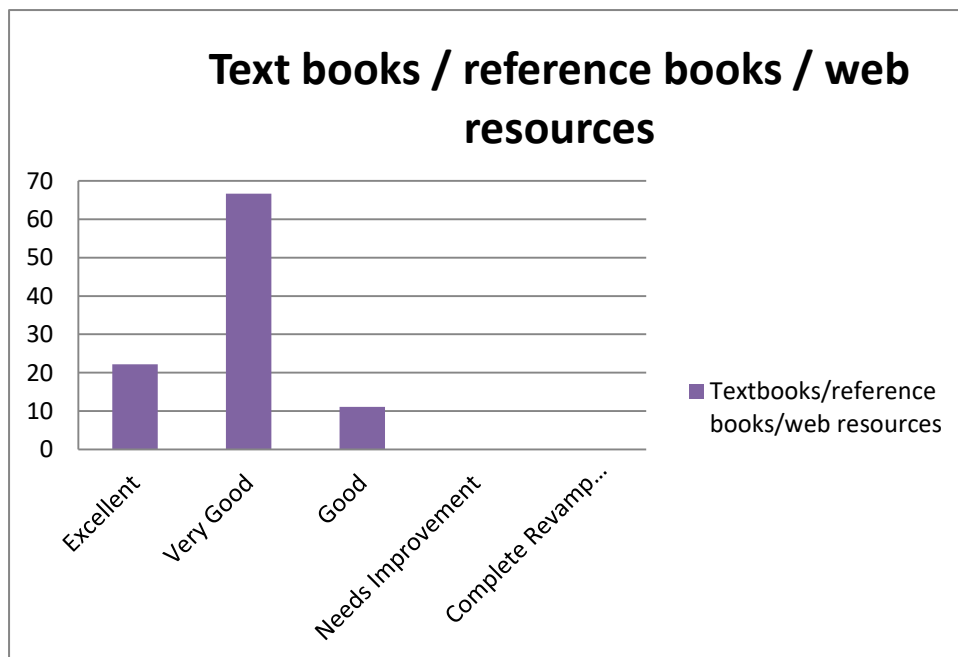

33% of the industry experts have certified excellent for balance between theory and practice in the curriculum, also 44% have certified it to be very good and remaining have certified it to be good and needs improvement.

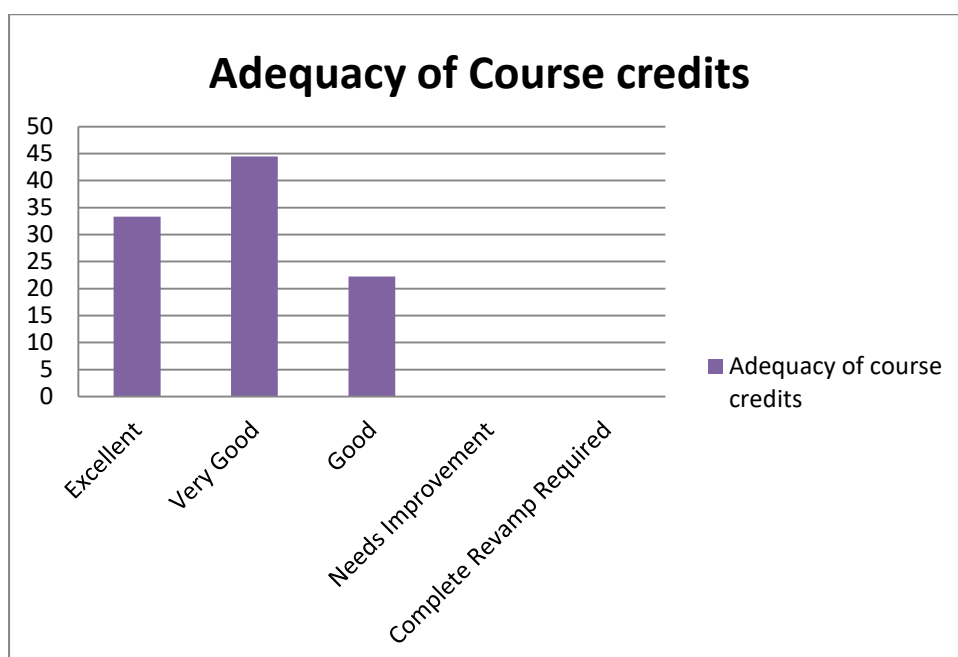

The evaluation methodologies adopted are found to be excellent, very good and good by 33% each of the industry experts .

Regarding the allocation of duration for students internship and project in curriculum most(44%) of the industry experts commented it as excellent and 33 % as very good, 22% of industry experts have commented it as good.

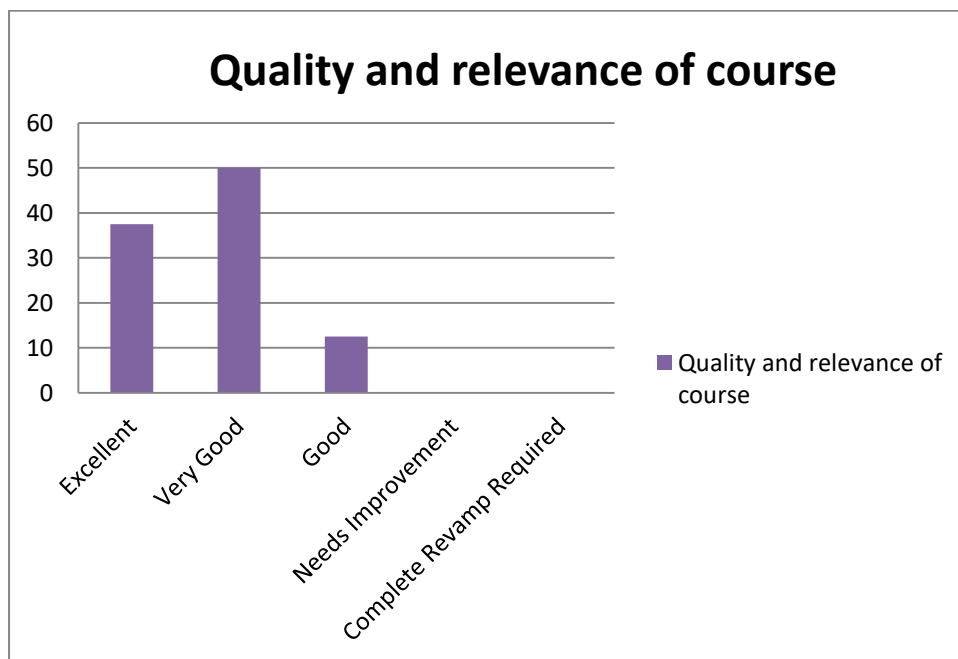

Text books/ reference books/ web resources are adequate for content delivery is certified to be very good by most (67%) of the industry experts, 22% have certified it as excellent and on 11% have certified it as good.

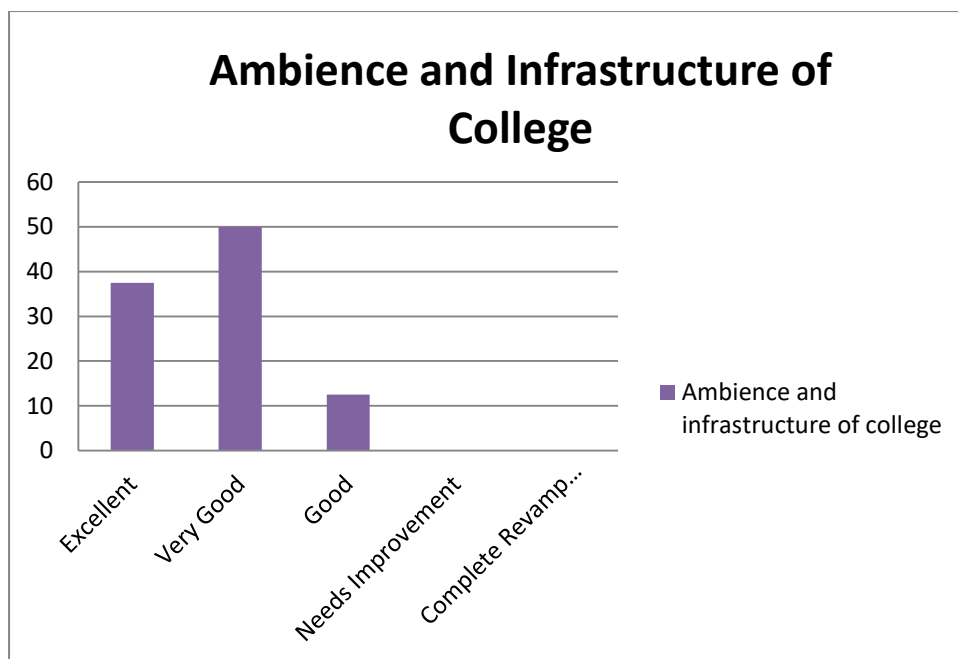

Adequacy of course credits and its ability to produce graduates in terms of knowledge and skill has been commented as excellent by 33% of industry experts and remaining 44% and 22% have commented it as very good and good.

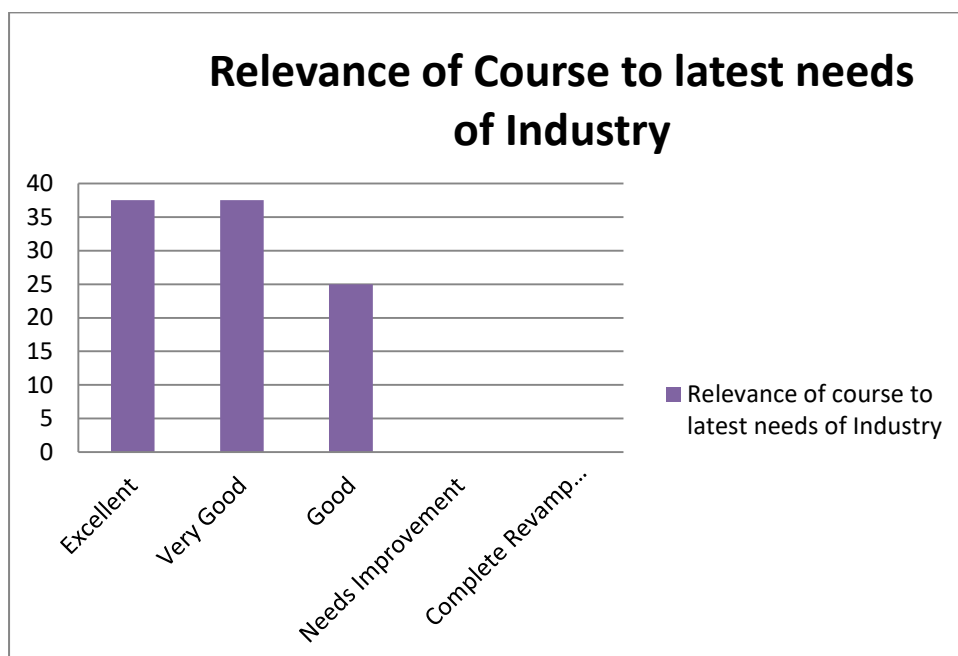

FEEDBACK FROM PARENTS

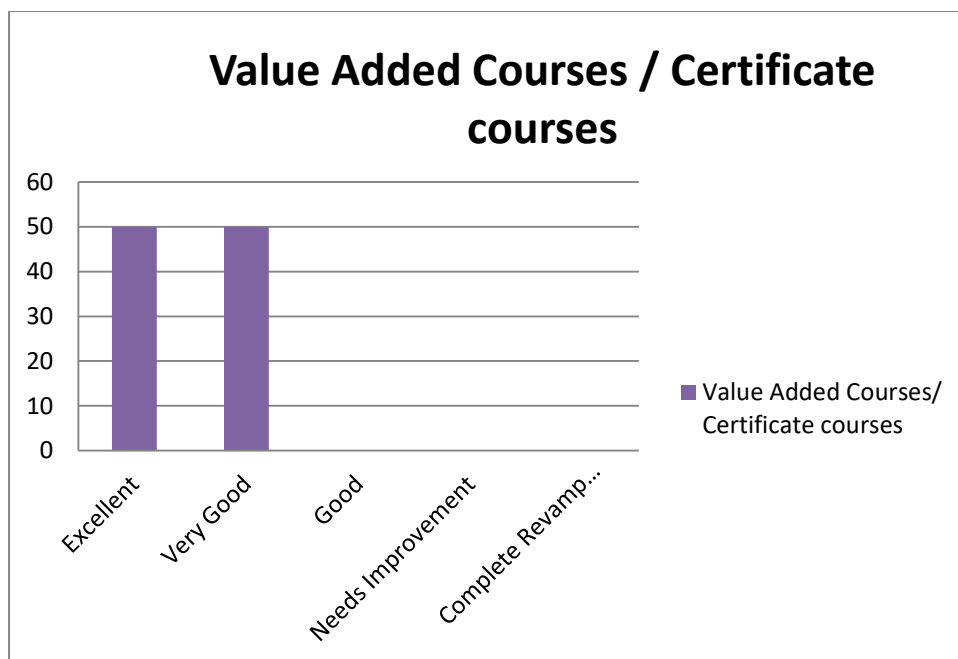

From the feedback collected from the parents it was observed that, the quality and relevance of course provided to their ward are commented to be excellent and very good by 50% and 37.5% of the parents, whereas 12.5% of parents have commented it to be good.

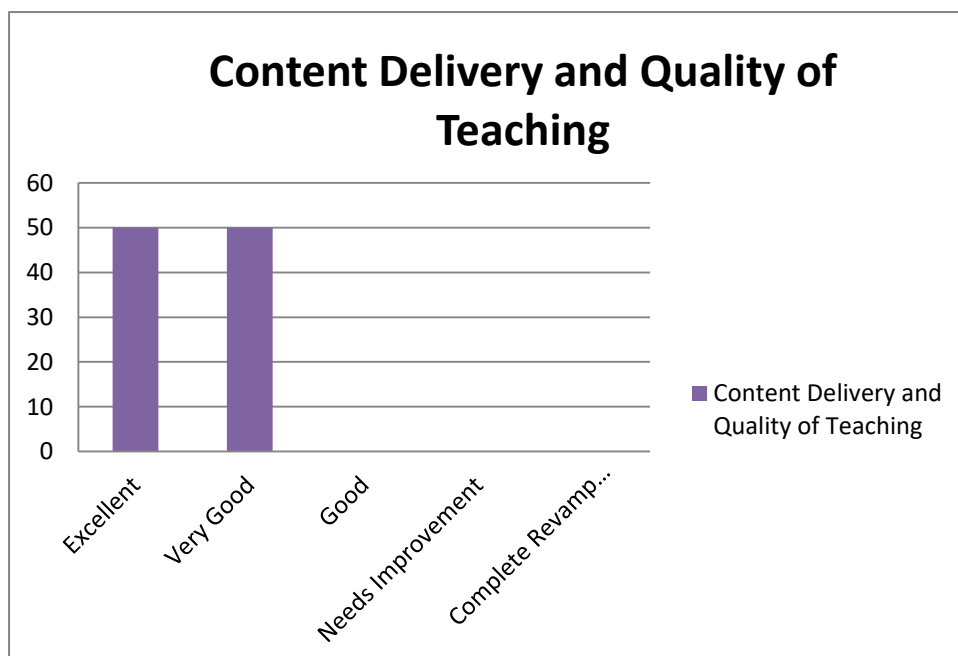

The effectiveness of the ambience and infrastructure of the college are found to be excellent and very good by 38% and 50 % of parents, while 12.5% have mentioned it as good.

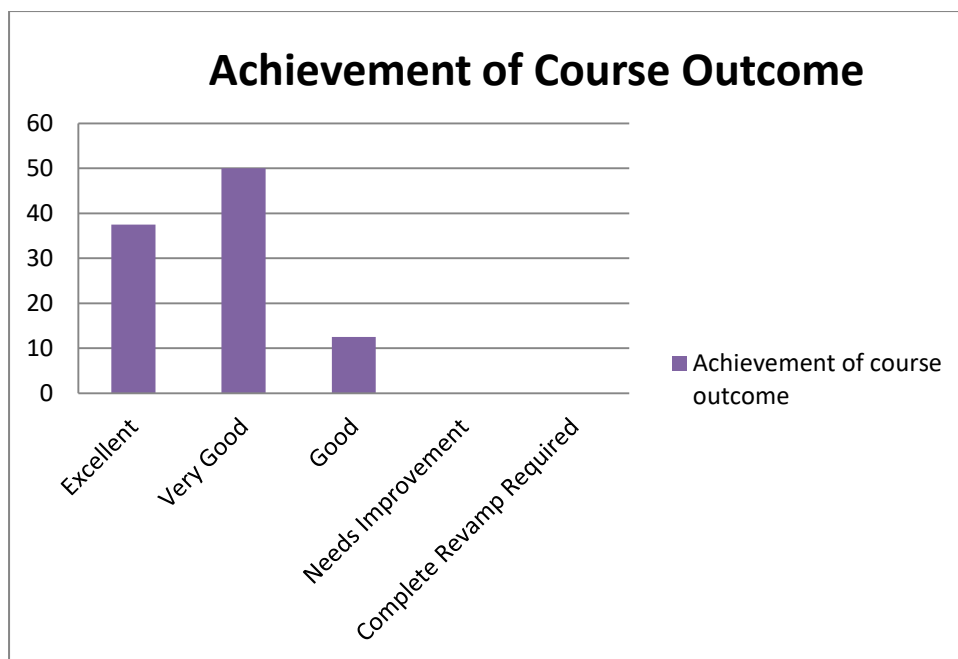

Most (37.5%) of the parents feel that the course provided are relevant to the latest industry needs are excellent and very good, and the remaining 25% feels it to as good.

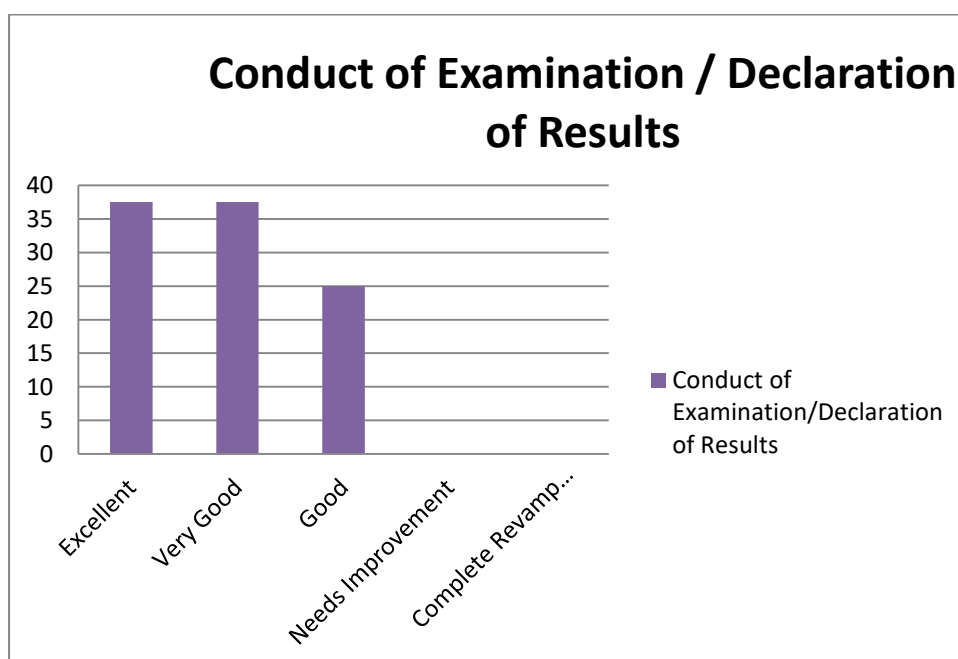

The value added course and certificate courses offered help in placement are found to be excellent and very good by 50% of the parents respectively.

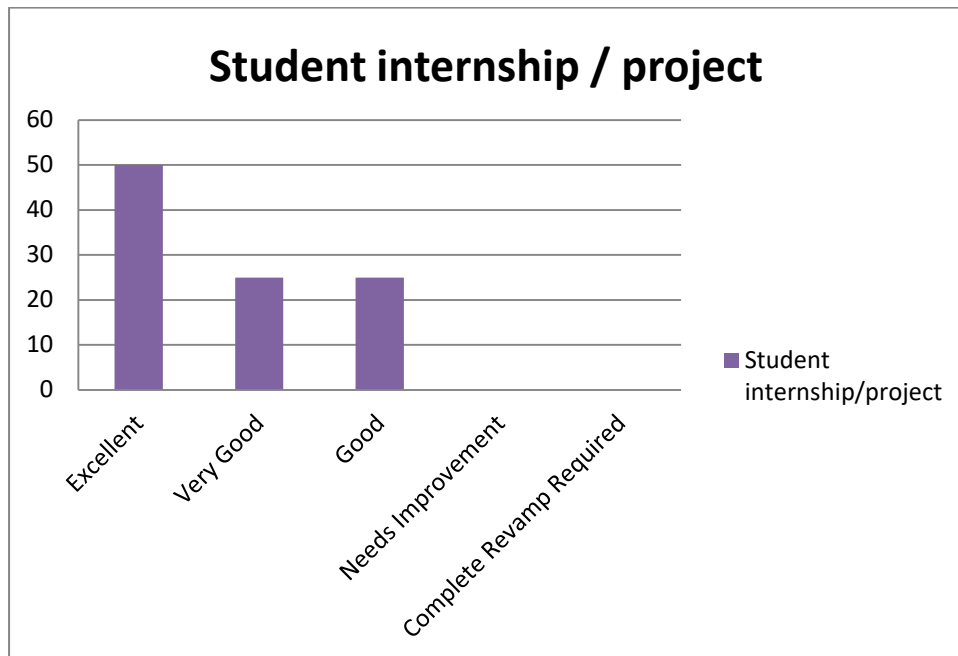

The content delivery and quality of teaching are found to be excellent y and very good by 50% of parents respectively.

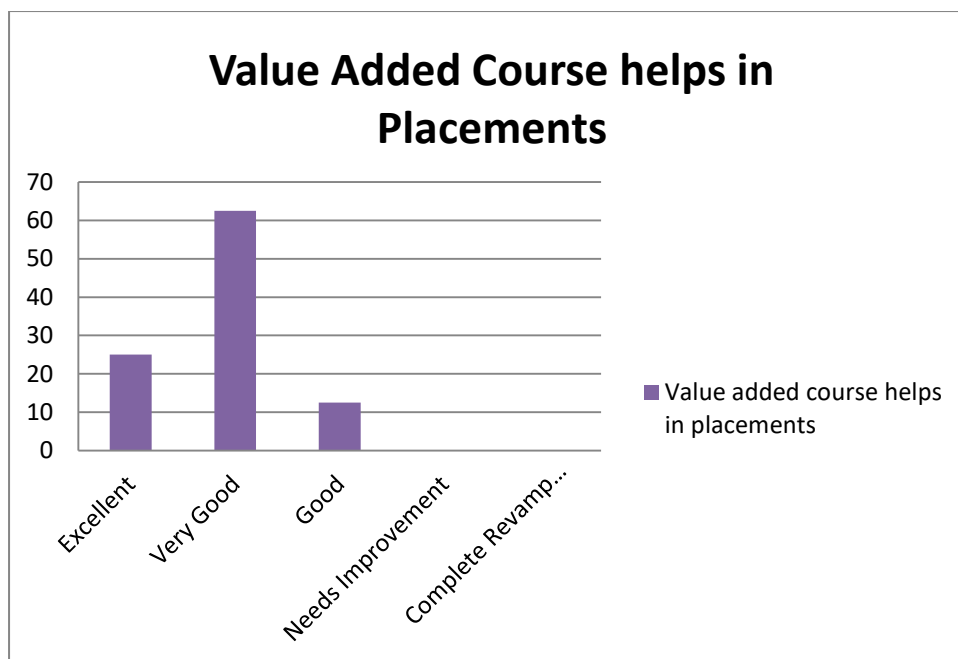

The outcomes have been achieved by their ward are found to be very good by most (50%) of the parents, While 37% are feeling it as excellent and 12.5% feels need improvement.

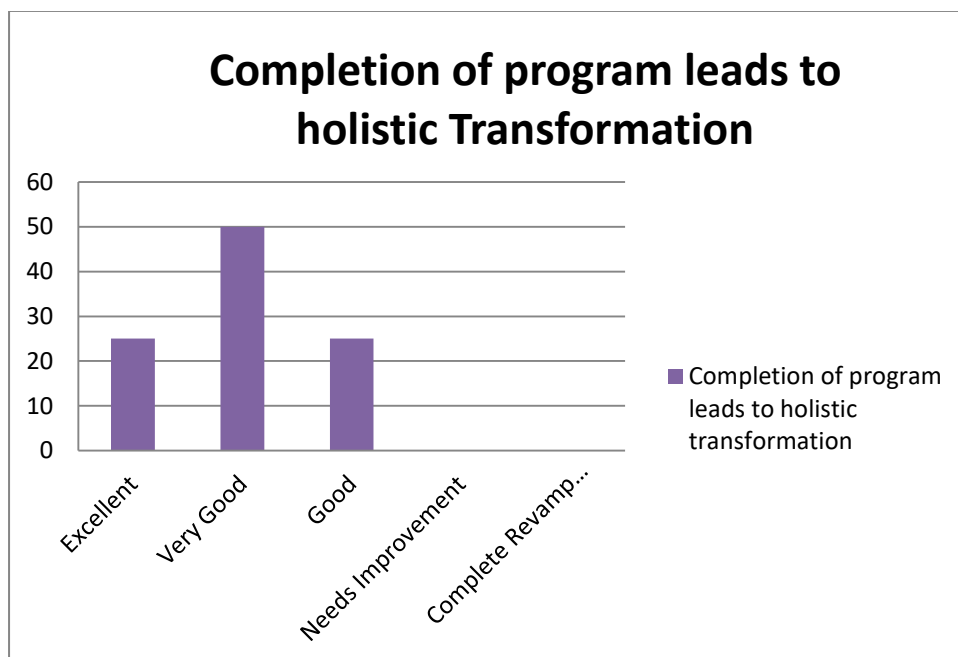

The conduct of examination are commented to be excellent, very good by (37%) each and remaining 25 % expressed as good.

Most (50%) of the parents feel that the students internship and project are excellent and 25% feels very good and good respectively.

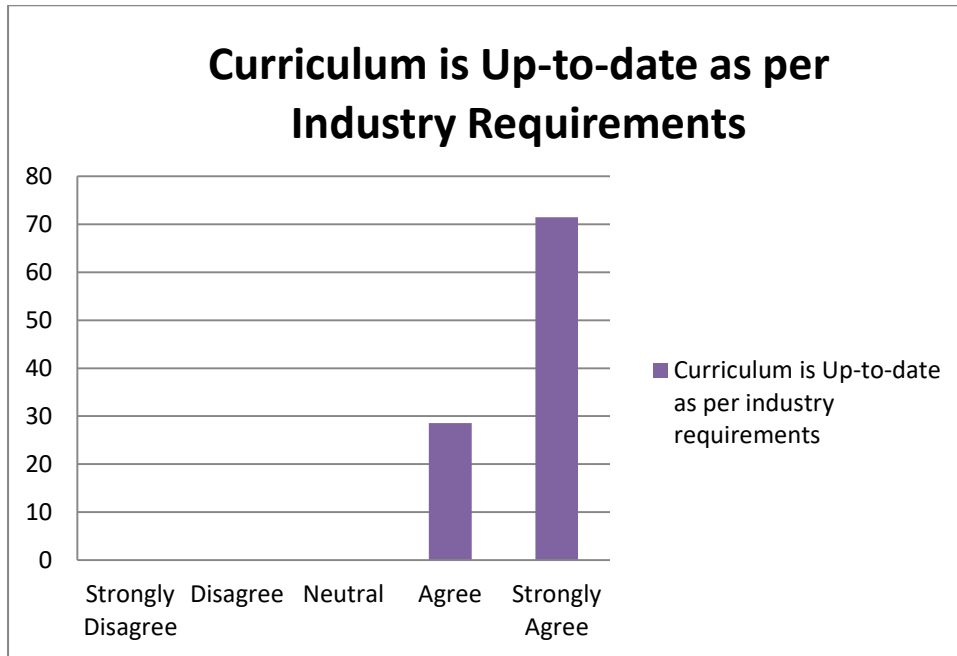

Value added course helps in placement are commented very good and excellent by 63% and 25% of parents and the remaining 13% feels it as good.

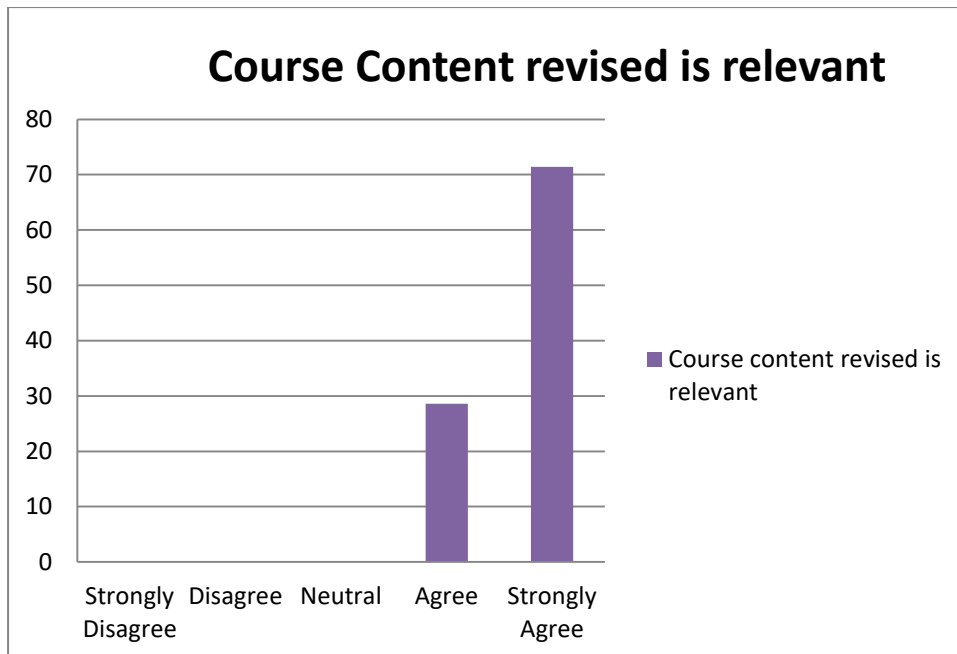

After completing the program students can get an holistic transformation are rated excellent and very good by 25% and 50% of parents, while the remaining 25% rated it as good.

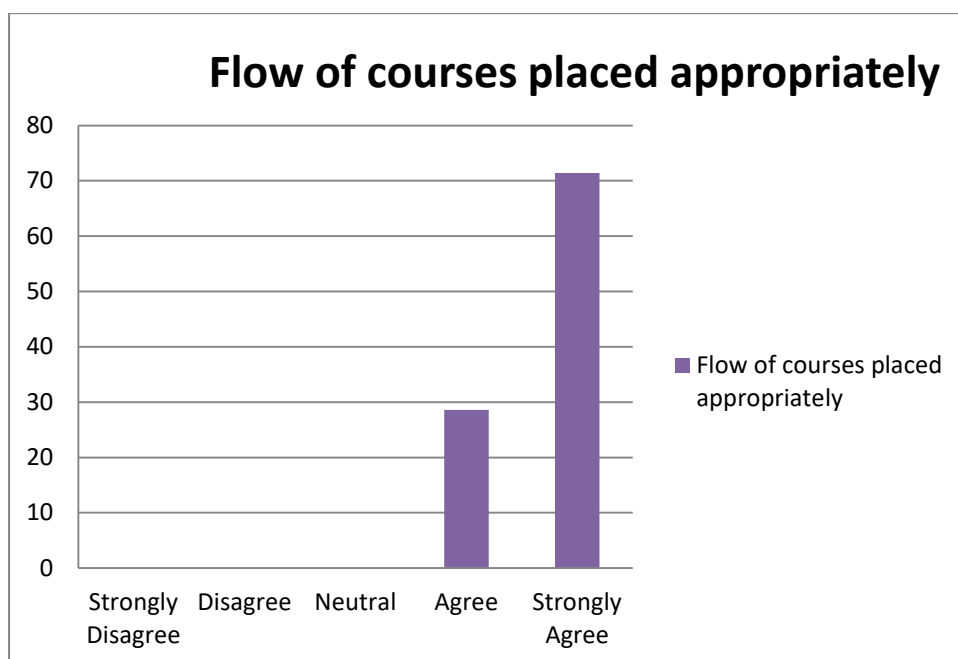

Feedback from Alumni

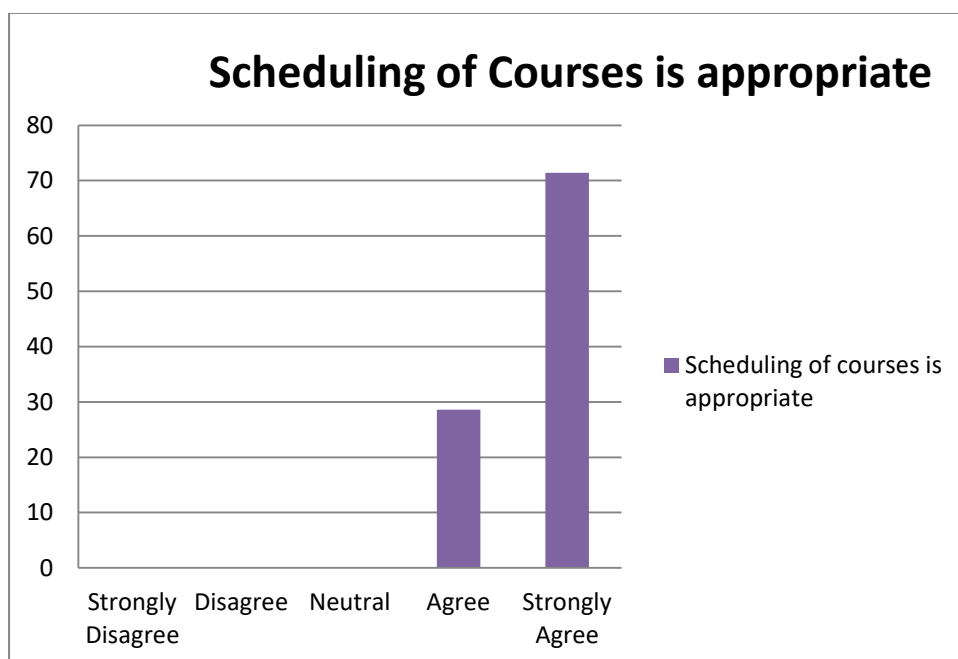

The course content in the curriculum is up to date as per the industry requirements is agreed and strongly agreed by 28% and 72% of the alumni.

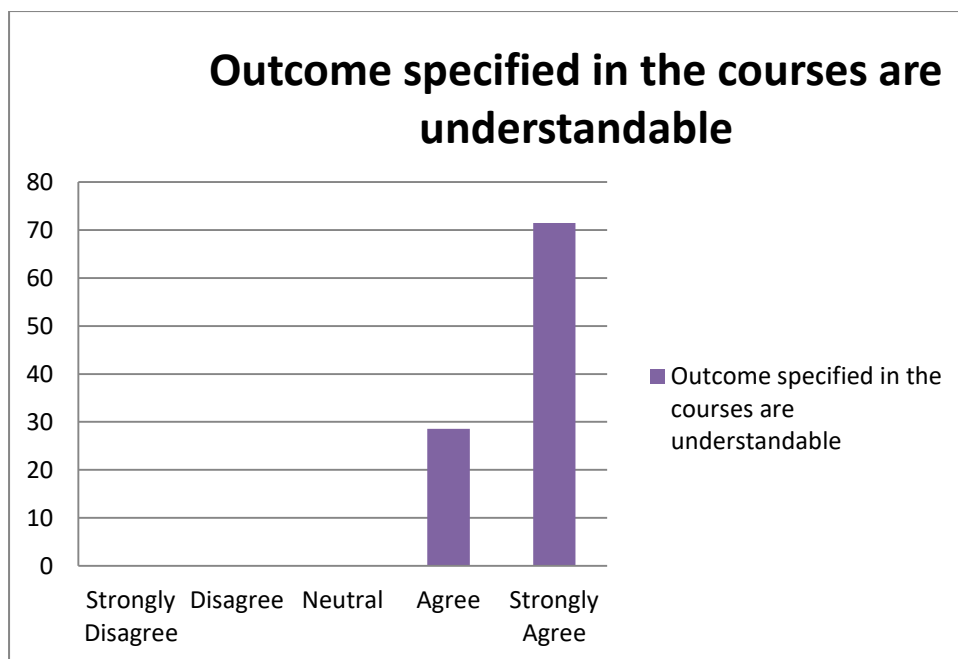

The course content revised is relevant to the intended learners is agreed and strongly agreed by 28% and 72% of the alumni.

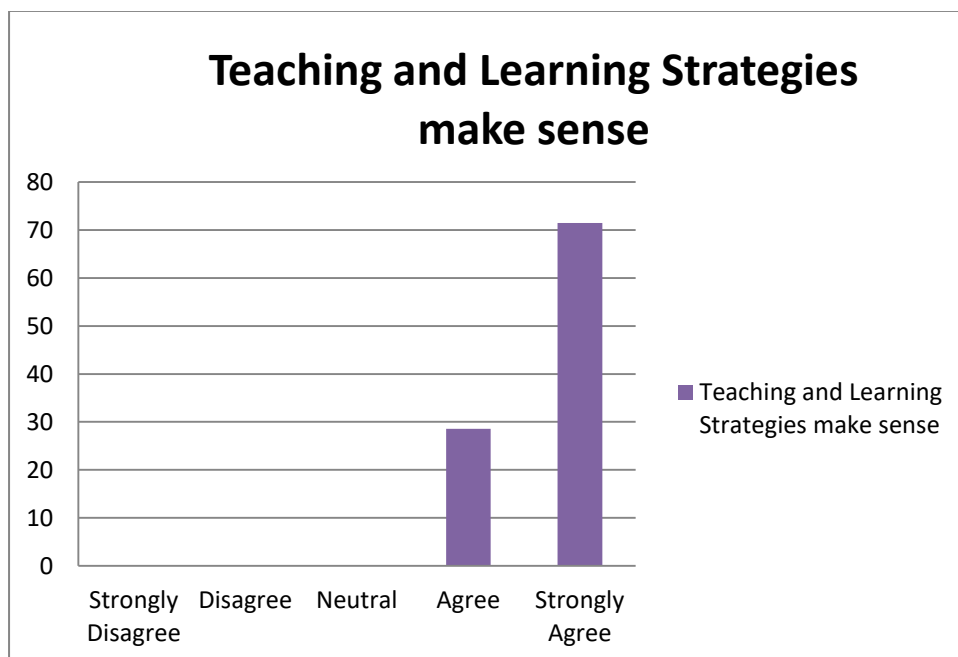

The flow of courses placed appropriately throughout the programme is agreed and strongly agreed by 28% and 72% of the alumini.

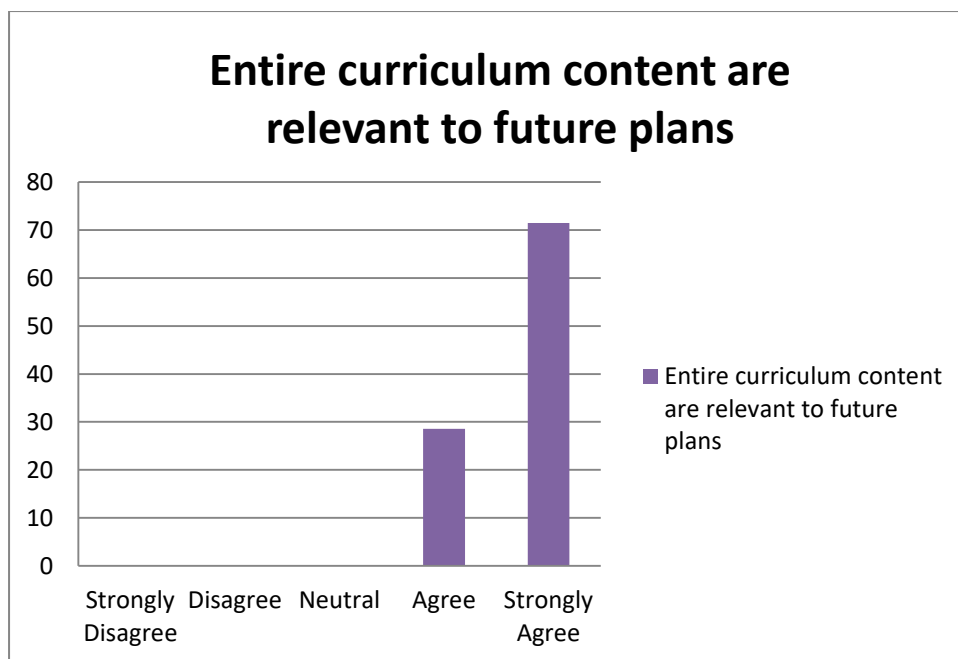

The scheduling of the courses is appropriate in the semester pattern is agreed and strongly agreed by 29% and 71% of the alumini.

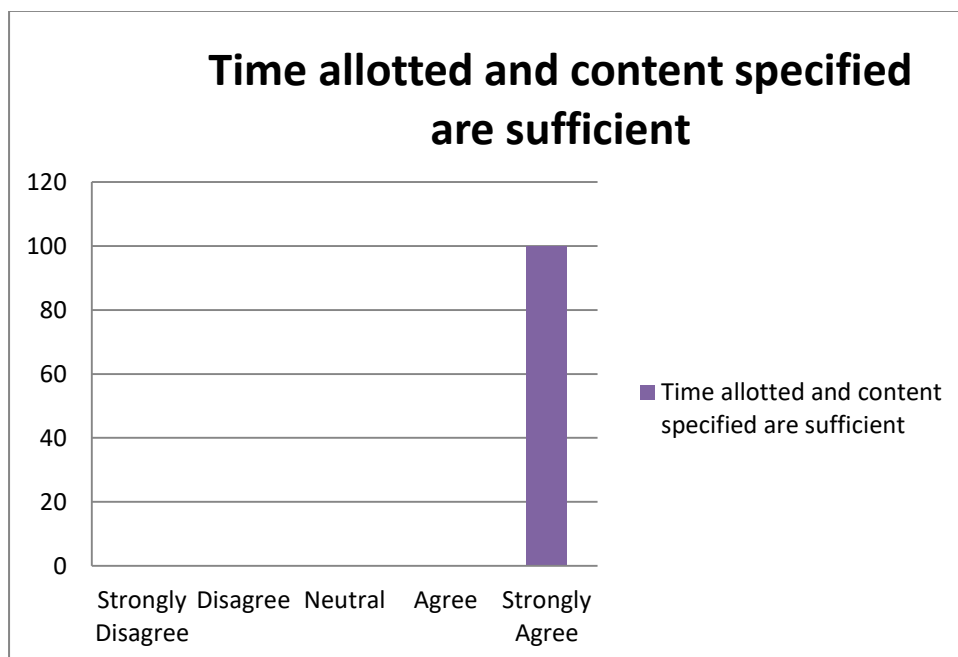

The Outcome specified in the courses are understandable by the students is agreed and strongly agreed by 28% and 72% of the alumini.

The Teaching and Learning Strategies make sense is agreed and strongly agreed by 28% and 72% of the alumini.

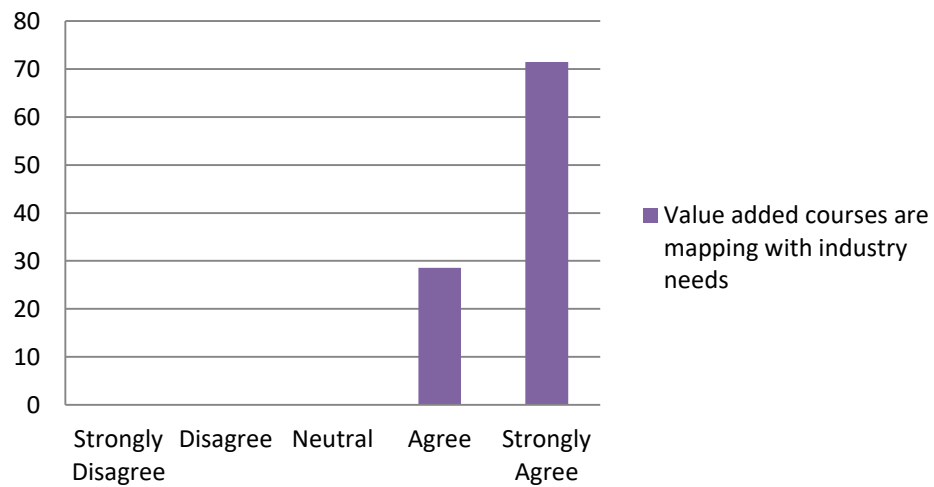

The Entire curriculum content are relevant to future plans of the students is agreed and strongly agreed by 28% and 72% of the alumini.

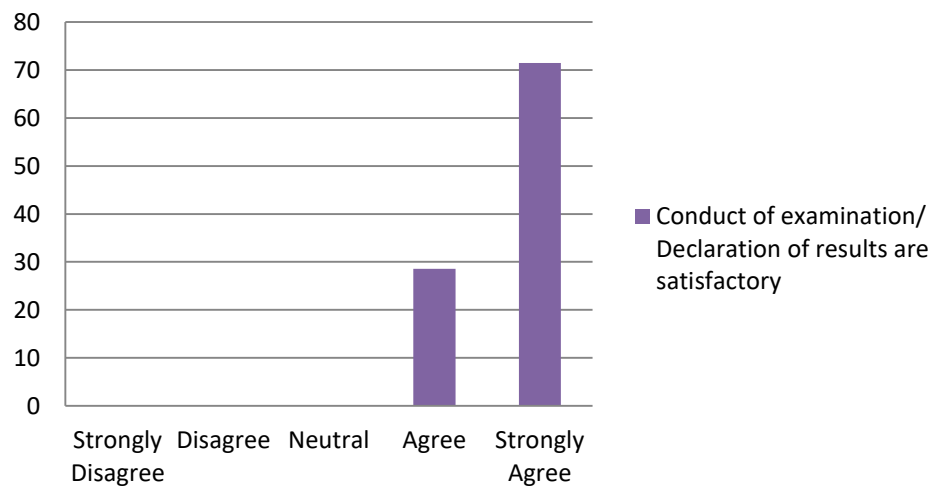

The Time allotted and content specified in the lab exercises for practical courses are sufficient is strongly agreed by 100% of the alumini.

Value added courses are mapping with industry needs

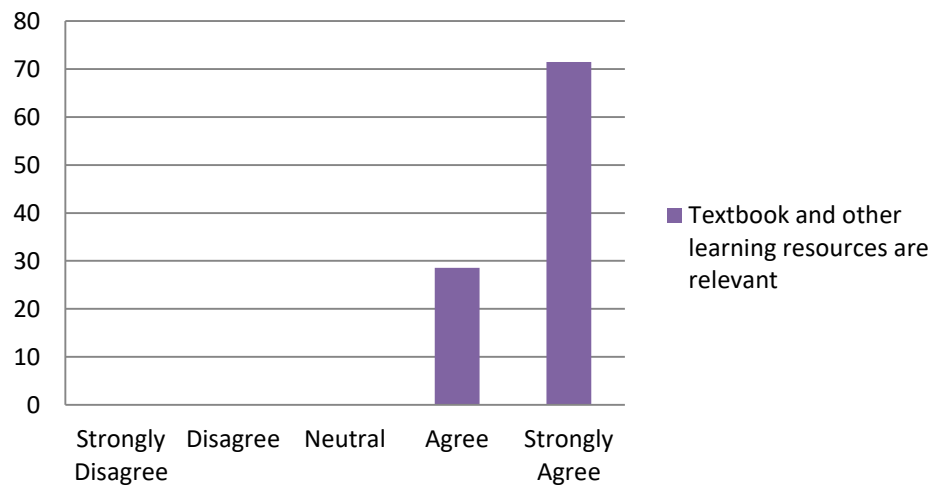

The Value added courses are mapping with industry needs is agreed and strongly agreed by 28% and 72% of the alumini.

Conduct of Examination/Declaration of results are satisfactory

The Conduct of Examination and Declaration of results are satisfactory is agreed and strongly agreed by 28% and 72% of the alumini.

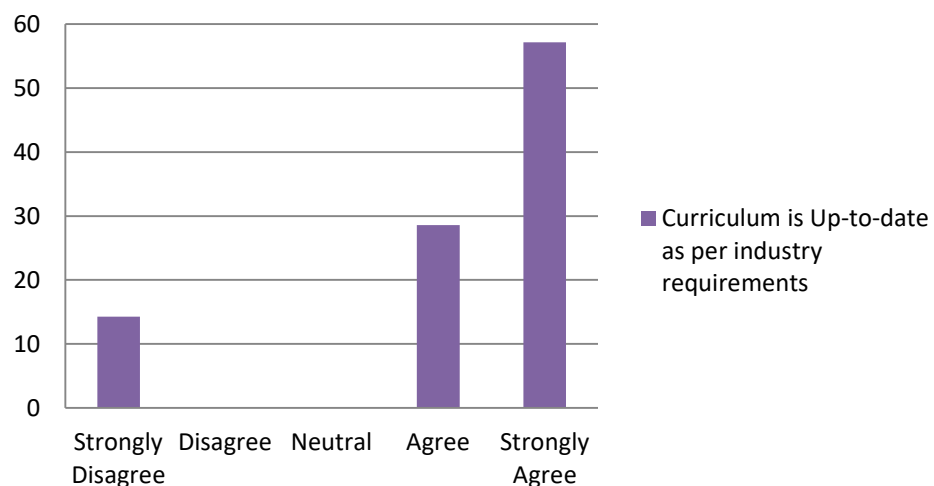

Textbook and other learning resources are relevant

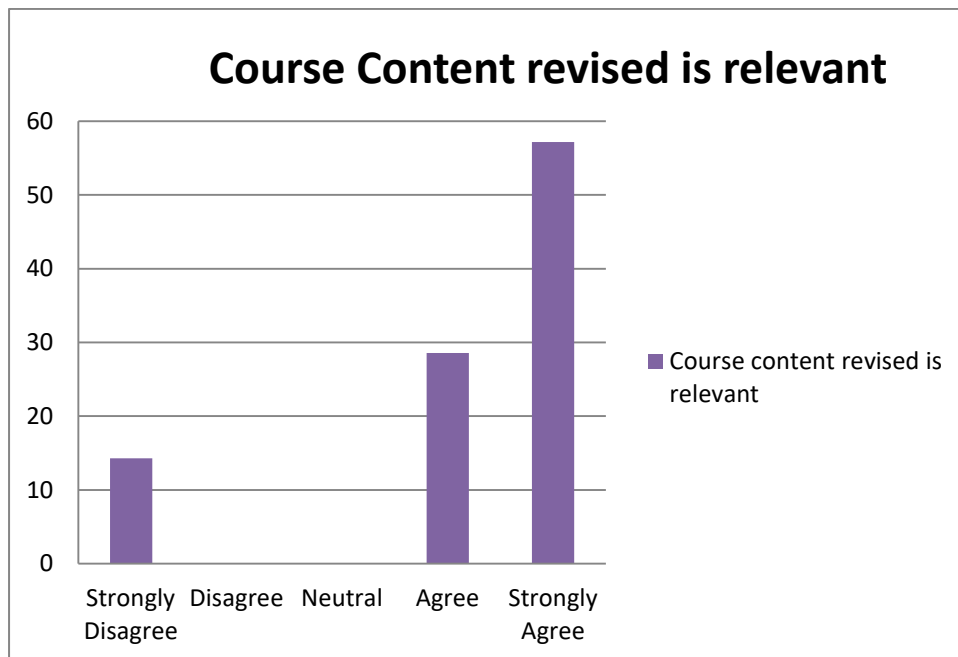

The Textbook and other learning resources are relevant is agreed by 28% and 72% of the alumini.

FEEDBACK FROM STUDENTS

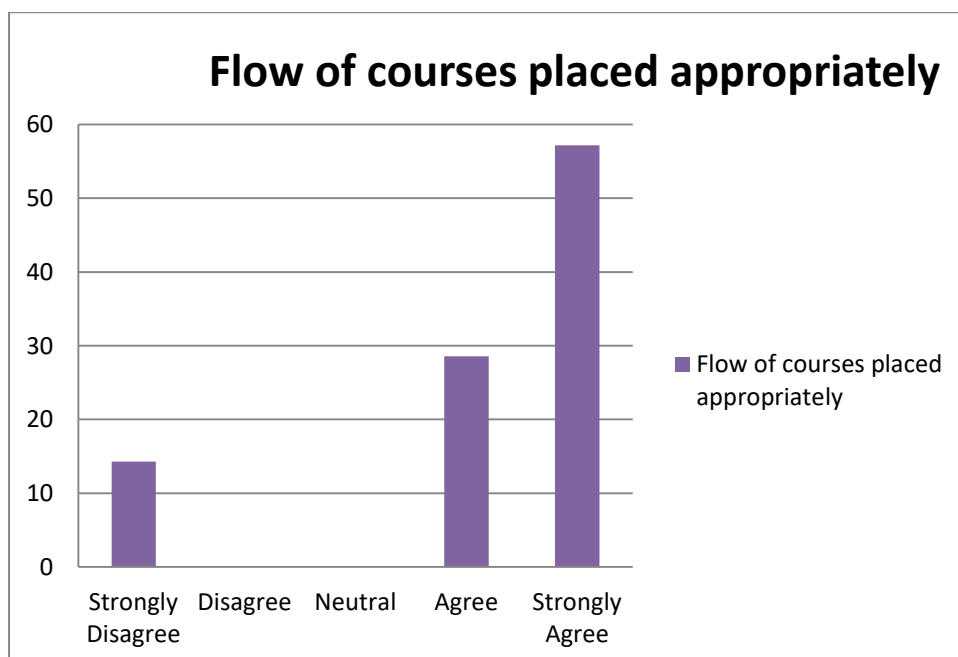

Curriculum is Up-to-date as per Industry Requirements

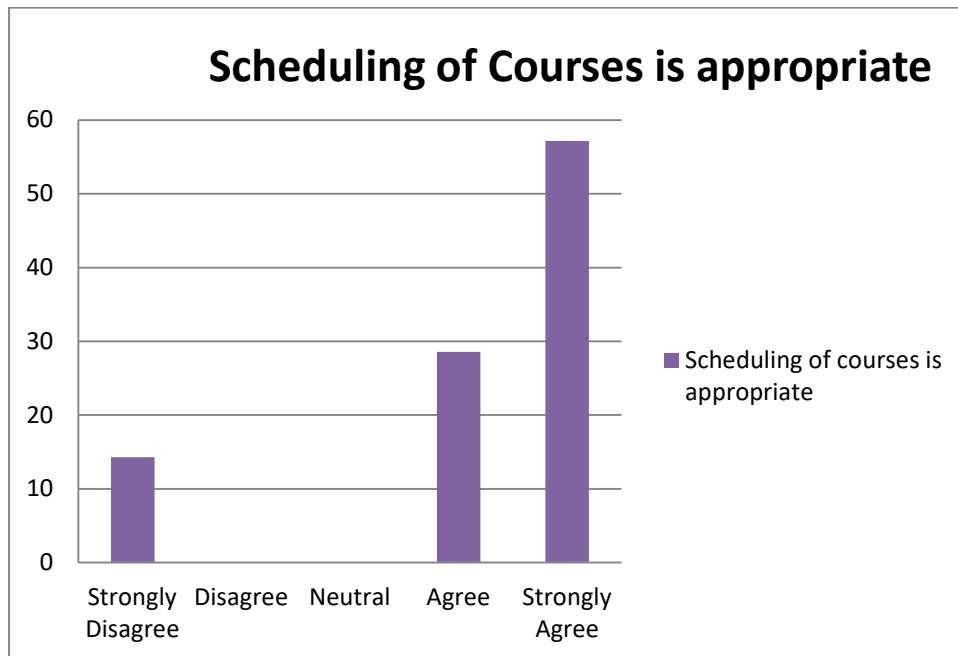

From the feedback received from the students we observe that, most of the students (71%) strongly agree to the statement that the curriculum is up-to-date as per industry requirements.

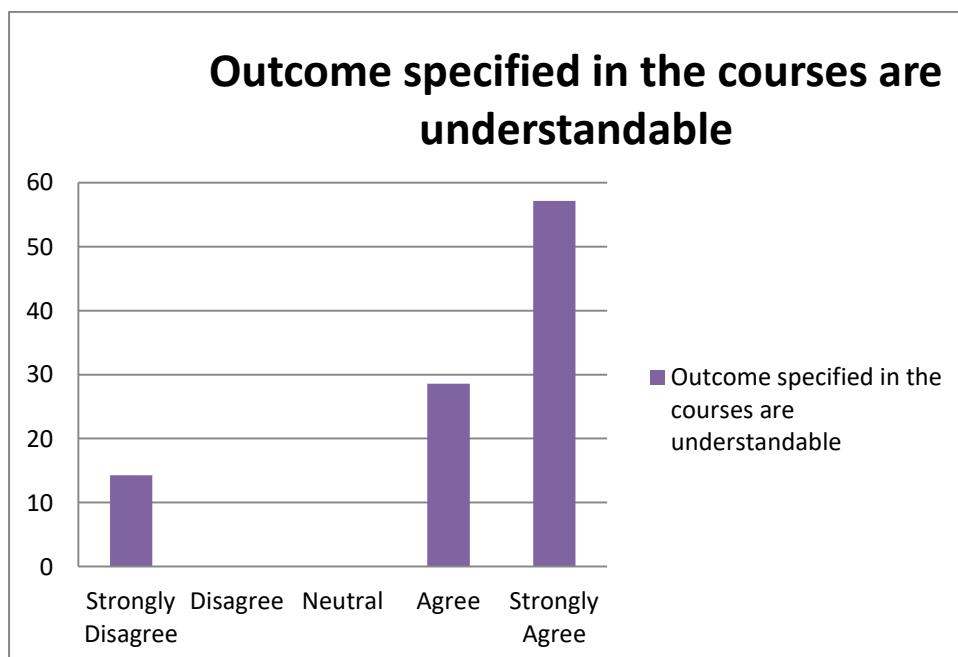

Most of the students (71%) strongly agree to the statement that the course content revised is relevant. Only 14% of students doesn't agree to this statement.

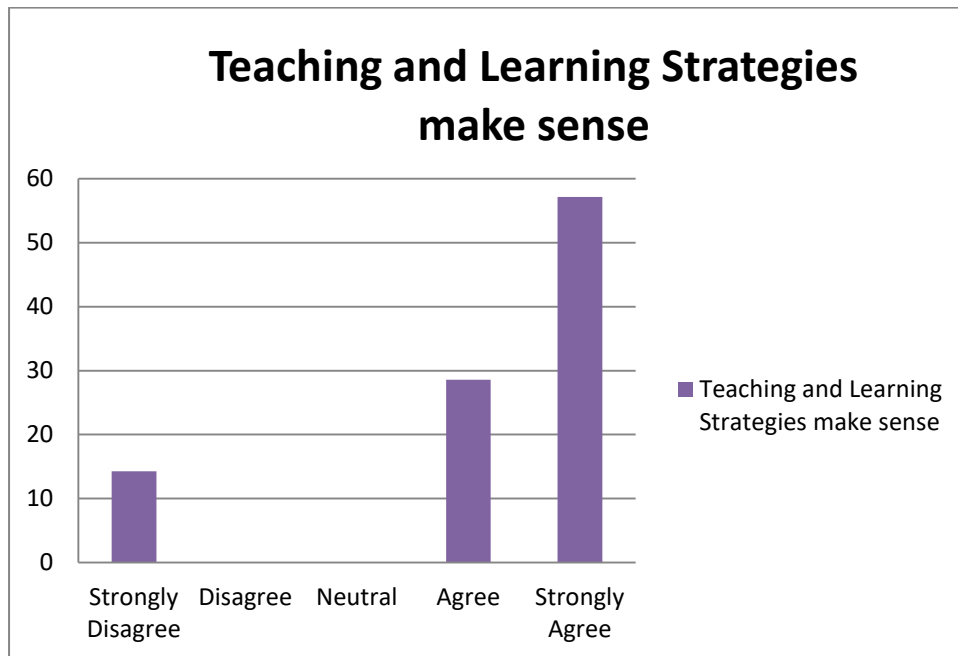

The Flow of courses are placed appropriately in the curriculum is strongly agree by most of the students only very few disagree to it.

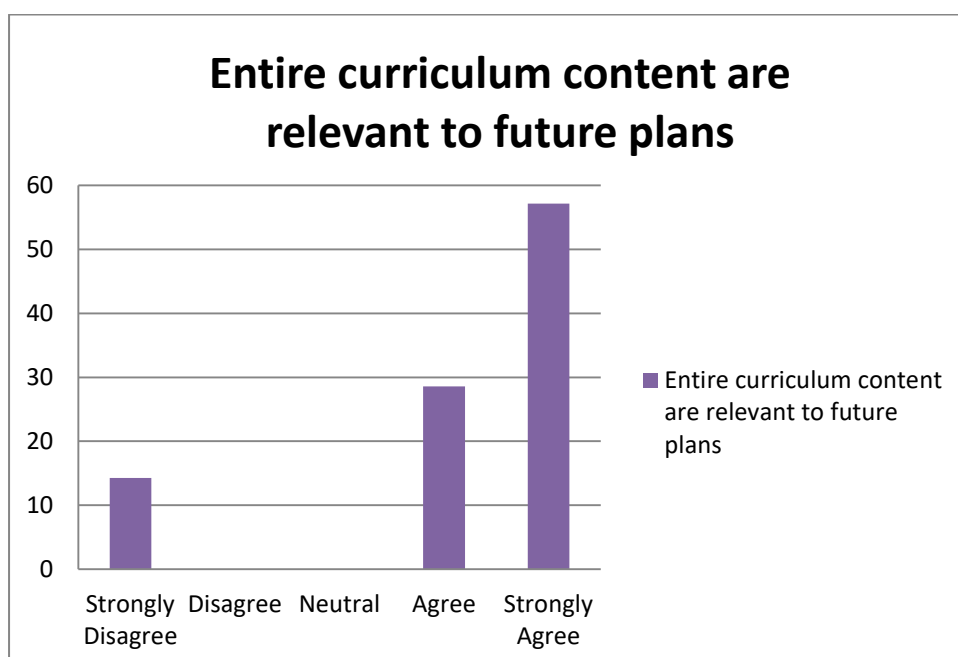

The scheduling of the courses is appropriate in the semester pattern is agreed and strongly agreed by 28% and 58% of the students and the remaining 14% strongly disagreed.

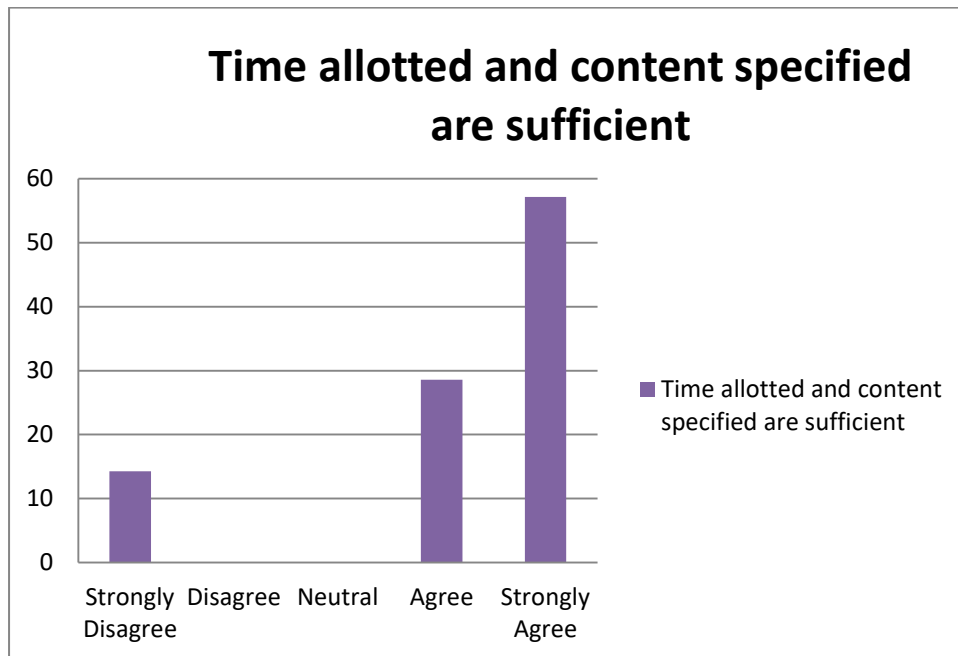

The Outcome specified in the courses are understandable by the students is strongly agreed by most of the students.

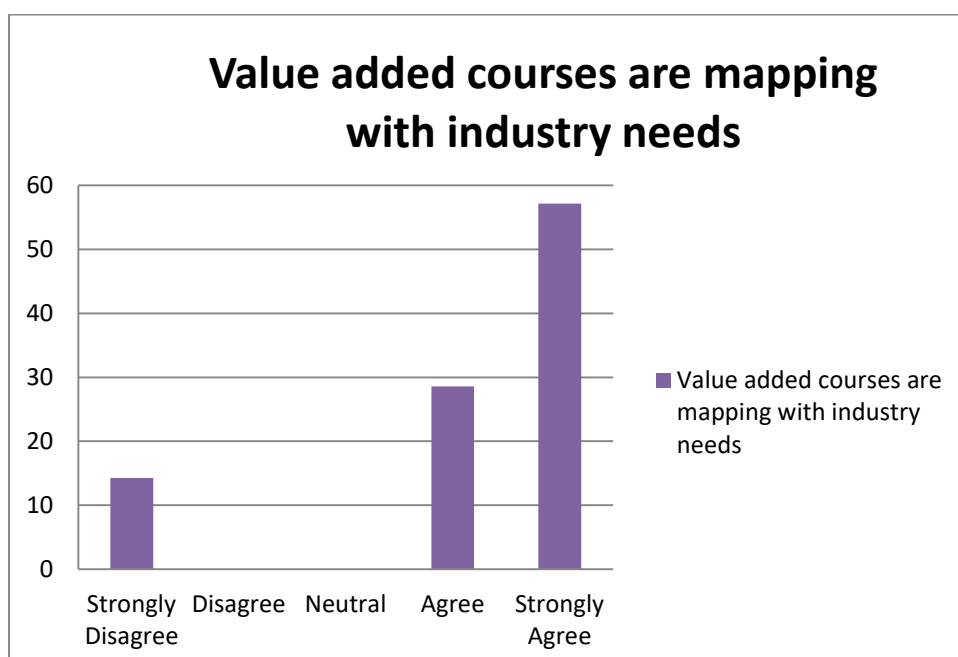

The Teaching and Learning Strategies make sense is strongly agreed by most of the students.

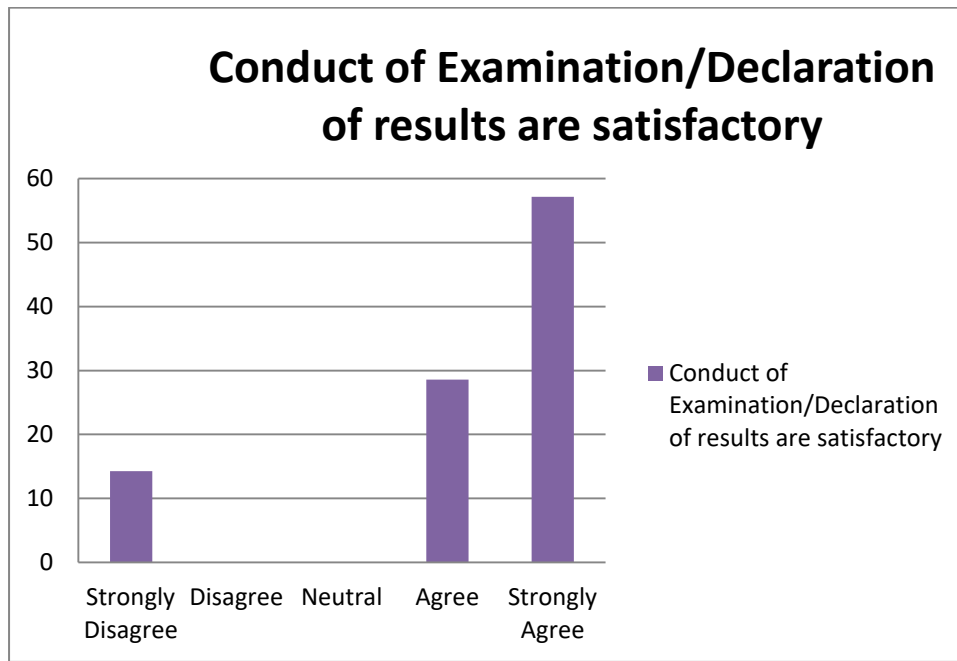

The Entire curriculum content are relevant to future plans of the students is agreed and strongly agreed by most of the students.

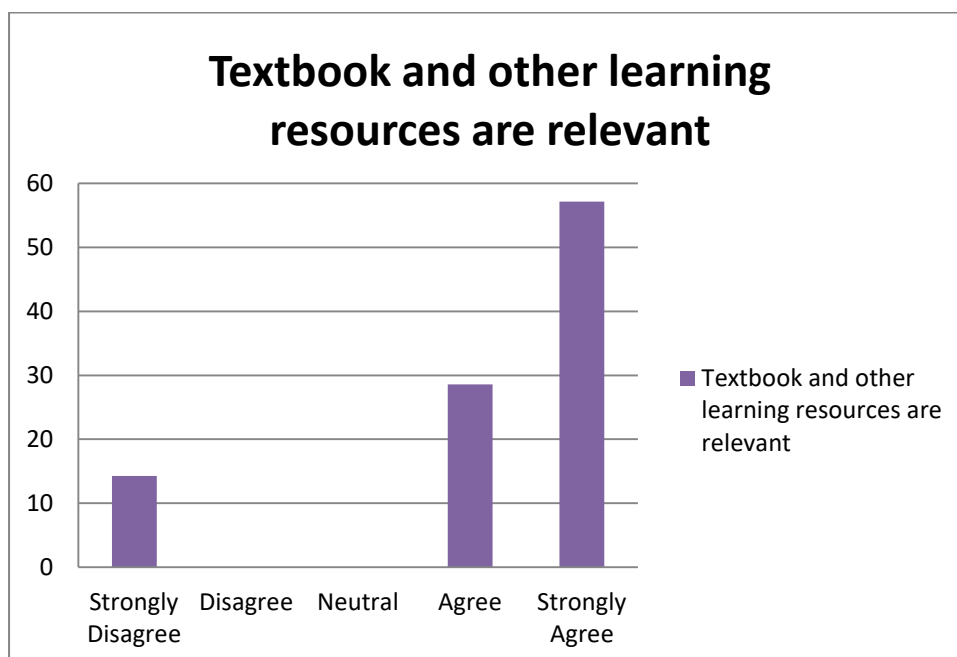

The Time allotted and content specified in the lab exercises for practical courses are agreed and strongly agreed by most of the students.

The Value added courses are mapping with industry needs is agreed and strongly agreed by most of the students.

The Conduct of Examination and Declaration of results are satisfactory is agreed and strongly agreed by most of the students.

The Textbook and other learning resources are relevant is agreed by most of the students.
