The MIS is indigenous software developed by our dedicated software programmers. The MIS pervades the following areas of institutional activities: Modules and its description:</p> <ul style="list-style-type: none"> • Student Management System Bulk SMS facility is used to intimate the day to day attendance to the parents in larger groups. There is a student's KIOSK system where the students can use their Radio Frequency Identification (RFID) card to access details like attendance, events, examination schedule, examination results and fees. • Staff Management System All activities related to staff such as Attendance, Leave, Permissions, Requests, Salary, Canteen expenditure can be accessed by the staff using this module. • Integrated Library Management System(ILMS) Ledger maintenance, Borrowing and Lending are the major activities in the ILMS. Students and Staff can borrow books only through Biometric System and can also reserve books online through Online Public Access Catalogue (OPAC). • Controller of Examination Management System Assignment and internal marks are uploaded directly managed through this module. The Module is programmed in such a way to manage the conduction of formative and summative examinations,

valuation and evaluation of attainment of POs and COs. To motivate the students to take up online competitive examinations, CoE organises Computer Based Test for the Part IV courses. • Canteen Payment System The payment by the staff and students are made through biometric system. The consumption details can be viewed by the Staff and Student using their RFID card. Staff consumption will be deducted from their salary on a monthly basis. • Subbalakshmi Lakshmipathy Foundation (SLF) Accounting module The entire financial transactions are done using SLF Control Panel (a module developed by SLF Software programmers). As mentioned earlier all matters relating to maintenance of college accounts, income and expenditure accounts, staff salary are also accounted using the same software. The Payroll module collects the data from biometric system and is passed to payroll for payment of salary. All the modules are interrelated and the CoE module activities are kept confidential.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

The institution follows the practice of collecting feedback about the curriculum from Students, Teachers (External examiners and faculty members of the Board of Studies), Employers, Alumni and Parents through questionnaires. The analysis of the feedback is done systematically and appropriate actions are taken based on the analysis and suggestions provided. Students' Feedback: Students' Feedback on co-curricular activities such as Conferences / Seminars/ Workshops / Guest Lectures was organized effectively to support the curricula. The Students' Feedback was that ICT Tools could be used more for the newly introduced courses to support the teaching and learning. Action Taken: The teachers utilized the ICT tools to enhance their Teaching - Learning Process. The students were encouraged to pursue Swayam -NPTEL courses and Institute has framed Policies to support and reward their involvement in MOOCs. Both teachers and students were instructed to record their Academic Activities through the newly proposed Learning Management System (LMS). Teachers' Feedback: External examiners and Faculty members of the Board of Studies suggested that the courses and the content need to be framed to satisfy the needs of the current scenario. Action Taken: The content of the Practical courses were fine-tuned to acquire more practical knowledge of the theoretical concepts. Alumni Feedback: Feedback of the Alumni insisted on the need of introducing more contemporary courses in the curriculum to enhance Entrepreneur skills of the students. Action Taken: New courses in each programme were introduced to develop Employability and Entrepreneurship skills of the students. Parents' Feedback: They also echoed the words of the Alumni and the Employers to provide more contemporary courses in the Curriculum. Action Taken: New courses in each programme were introduced to develop Employability and Entrepreneurship skills of the students. Employers' Feedback: The feedback given by the employers on curriculum made it clear that the curriculum should be effectively framed to

induce innovative thinking among students. Theory and practical courses should facilitate the students to use modern equipments and ICT Tools. Action Taken: To develop the innovative thinking of the students, innovative Teaching - Learning Processes were introduced such as Project Based Learning, Collaborative Learning and Case Based Learning.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Yes , We at SLCS follow mentoring system for the benefits of students academic and stress related issues. The Mentoring System promises to foster a strong rapport between the students and teachers at a personal level. Each faculty member is a mentor of a group of 20 to 25 students and maintains a record for each mentee with

her personal as well as academic particulars. Students with serious issues will be directed to the student counseling centre through the mentor and department head. In case of academic irregularities or negative behaviours, the parents of the concerned students are apprised personally and necessary remedial measures are taken. The mentor keeps track of the academic performance of the mentee by registering their periodic as well as semester exam marks on the basis of which students were counselled and encouraged to improve their performance. The mentor guides them to reach their aspired career goals as well. The Students Mentoring System plays an effective role to discuss, decipher and disentangle mentor's problems in a smooth manner.

Maintenance and Utilization Policy As an established policy the academic session starts from June of a calendar year to March of the subsequent year. April and May are declared as summer vacation for the students mainly to address the maintenance work which includes civil, electrical, plumbing, carpentry and painting works. A team of Civic Service Personnel headed by a Campus Engineer carry out all the maintenance work immediately. We have also introduced a scheme called Day-to-Day audit. An electrician and a plumber are deputed under this audit to inspect and carry out maintenance work. The Department in-charges forward the Maintenance work to be done to the Principal, who forwards it to the Campus Maintenance Engineer. The campus is installed with Lightning Arresters, Surge protectors and Uninterrupted Power Systems to

avoid mishaps. Power Generators are maintained periodically to provide round the clock power supply in the College and Hostel buildings. There are highly mechanized kitchen equipments, imported and indigenous, used in the Hostel mess to cater to the students and in the Marine Catering and Hotel Management Department for students Training purpose. All kitchen equipments are handled and maintained by ITI or CNC qualified operators. The computer systems are maintained by a team of Lab Assistants headed by a System Administrator. High-end systems such as HP work stations and Apple i-mac Computers are maintained by authorized service agents. The Lift and Biometric attendance Machines are maintained under Annual Maintenance Contracts. Most students and staff utilize the college bus for their commutation. The buses and vans are serviced and maintained through Authorized Service Centers. The buses are completely serviced and Fitness Certificates are obtained from the Regional Transport Authority, Government of Tamil Nadu. The Campus has a vegetable garden, a Vermicomposting farm, and a number of small gardens, which are maintained by an Agricultural Officer. Organic vegetables are supplied to Hostel Mess. All comfort rooms are well maintained and cleaned twice a day by a team of House-Keeping Staff. All Computer systems in our campus come under Cyberoam firewall protection. Anti-Virus /Anti-Malware softwares are installed and updated at specific intervals. All systems are connected with UPS to safeguard the system. Faculty and Students can borrow books only through bio-metric system. The Library has OPAC system installed in the reading hall. A stock register is maintained and updated periodically. Sports and Games materials are purchased periodically according to the needs. The Games fields are maintained properly with the help of Dozer, Bobcat machine, Weed Cutter and Roller to level the ground. To prevent fire hazards and to ensure the safety of the working environment ample Fire Extinguishers are placed with operating instructors in the campus. Once in a year, a mock-drill is practiced by the Fire and Industrial Safety Department for the whole college.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Practise of Decentralisation: I. Examination As an Autonomous College, the Controller of Examination (CoE) is given independent authority to conduct exams in the college. The CoE is housed in a separate block to maintain integrity and confidentiality. The CoE office houses the following: • CoE Chamber • CoE Staff Room • Strong Room • Valuation Hall Every month the CoE conducts one Examination Evaluation Committee Meeting with all the Head of the Departments (HoD's) who are the members of the committee. This meeting is conducted by the Principal, who is the Chief Controller of Examination and the Heads of the Departments share their views and suggestions to conduct Examination smoothly and successfully. The CoE conducts Internal and External Examination independently. All the internal Question Papers are set by the Internal Faculty members and the question paper are directly sent to the CoE for printing and to conduct the Internal Test. The End Semester Examinations (ESE) question papers are prepared by external examiners and the Question Papers are scrutinized before the ESE. Mostly, the results are published within 10 - 15 days from the last date of the examination after completing the valuation successfully. There is no interference or disturbance from the side of management or any other faculty member at the time of valuation or result publication. So, the integrity and confidentiality is maintained by the CoE office. II. Board of Studies (BoS) The BoS of every department is convened by the Heads of the Departments, Nominees of Madurai Kamaraj University, Industry Experts, Faculty, Alumni, Parents and Representatives from the students participate in the BoS meet for recommendations and revisions in the Syllabi to meet the industry requirements for the ensuing year. The BoS is conducted once a semester. All the members review the current syllabus and discuss with the other members before the BoS. The Board also considers the feedback given by the stakeholders and the actions taken accordingly. The BoS also decides the text and reference books to be given to the students according to the syllabus content mapping.

The Board also suggests the blue print for the Question paper. III. Academic Council: The syllabus recommended by the BoS is approved by the Academic Council, which consists of University nominees, Industry Experts, Senior Academicians and all the Heads of the Departments. The modus operandi for conducting the Examinations are discussed and finalized in the presence of CoE under the Chairmanship of Principal. In this way decentralization and participative management is practiced.

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

1. To ensure greenery in the campus, Students and Staff members are encouraged to plant and maintain tree saplings. The College is marching towards Plastic free campus. 2. Rain Water Harvesting implemented in the College and Hostel buildings are periodically serviced, to ensure maximum utilization of nature's gift. 3. Effluent Treatment Plant (ETP) has been installed to recycle greased water and reused for vehicle cleaning. 4. All the Departments of the college, Controller of Examination Office, and Laboratories are well connected with a good and efficient LAN network. Hence all the inter office correspondence are done through email. The College is working towards a paperless office. 5. Sewage Treatment Plant (STP) recycles waste water which is also used for flushing toilets and agricultural purposes. The STP is periodically upgraded and maintained.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

BEST PRACTICE-I 1. **TITLE OF THE PRACTICE:** EXPERIENTIAL LEARNING - INTERNSHIP 2. **OBJECTIVE OF THE PRACTICE:** The vision of the college is "To offer world class job oriented courses to the stakeholders" and based on this the Governing Body has decided to give hands-on training to all students during the course of the study, especially, in the last semester. 3. **THE CONTEXT:** Students are sent to various organizations depending upon their interested domains. Every Department contacts organizations related to the programme and the Heads discuss the modalities of sending students to the organizations for their internships. MoUs are signed with various companies to provide Internships for the students. 4. **THE PRACTICE:** Final year Students have to take up mandatory internship for their entire semester. The students who go for internship must maintain a work diary which is acknowledged by the employer and the institution. Finally, after completing the internship, students submit their project reports and attend viva-voce in the college. 5. **EVIDENCE OF SUCCESS:** Our college facilitates opportunities for the students to do their internship. This internship helps the students to have a competitive edge in the job market. Most of our students find employment in the company that they intern due to the superlative performance. Many of our students are also paid a Stipend while Interning. 6. **PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED:** Since most of our programmes are unique, students find it difficult in selecting organizations and hotels based on their interested domains for doing their internships in Madurai. Banks and Insurance Companies do not allow the students to do regular work and hence students visiting such organizations lack in work exposure. Many students who intern in cities find it economically taxing, as some companies do not provide a Stipend. **BEST PRACTICE-II** 1. **TITLE OF THE PRACTICE:** ACTIVITY BASED LEARNING - VALUE ADDED COURSES 2. **OBJECTIVE OF THE PRACTICE:** Value Added Courses (VAC) make students familiar with all the modern and updated concepts of the industry and enhances their chances of acquiring lucrative careers. 3. **THE CONTEXT:** The Value Added Course has its uniqueness in the context of Indian higher education. Altogether, there are 31 Value Added Courses, inclusive of International Certification Courses. The Value Added Courses are conducted for 30 to 60 hours in a semester. They help to play an important role in the development of the students overall personality, thereby enhancing their career prospects. 4. **THE PRACTICE:** The college takes steps to find out the current needs in the industry and signs MoUs to teach such Value Added Courses. 5. **EVIDENCE OF SUCCESS:** Nationally and Internationally recognized certificates are

awarded to the students after the successful completion of the course. The student possesses a minimum of two certificates before completing his / her degree program. 6. PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED: VACs are offered to students in addition to the regular curricula prescribed in the syllabus. Since most of our programmes are unique, finding Subject Experts is difficult and they have to be invited from outside Madurai causing a great financial burden. This, also, causes logistical problems such as balancing regular academics with VAC, allotting slots at a stretch for training, conducting internals and industrial visits. Some of the VACs are not affordable to the students due to high examination fees.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

INSTITUTIONAL DISTINCTIVENESS JOB ORIENTED PROGRAMMES The College Vision statement is "To offer world class job oriented programmes with an ethical focus for the benefit of all stakeholders". Based on the College Vision, the Management started this College in the year 1994, to offer, only, job oriented courses. The founder of this College had the Vision to provide only job oriented courses so that the youth of this country get benefitted and lead a quality life. The courses offered by the Institution are very unique, in terms of syllabi, content and course structure. 1. The college monitors the syllabus coverage through student representatives for every class hour and one academic auditor verifies the lesson plan already given by the staff. 2. The final year students are sent for internship / hands-on training in their respective field for a period of six months in their final semester. This type of internship is not followed in many Arts and Science Colleges. The Animation and Visual Communication students generally go to Chennai for their study as better infrastructure facilities related to film shooting, editing facilities, etc. are available. The students who undergo internships must maintain a work diary which is acknowledged by the industry and the institution. The students normally get placed in the Companies where they do their Internships. 3. The second and third year students are given Skill Orientation Courses by providing Campus Recruitment Training so as to provide hands-on exposure to the students to face interviews in a confident way. We have faculty specialized in teaching soft skills. 4. Choice Based Credit System is followed for all the Programmes. Outcome Based Education has been implemented. 5. The post graduate students of Management Studies are given training through Practice School concept, in addition to internship. Under Practice School concept, the students are sent to various organizations for hands-on training, twice a week during the third semester. 6. The college also offers two life skill Courses to all the students. They are Driving and Swimming. The college has a Semi-Olympic size swimming pool where the students are trained. There are separate Trainers for boys and girls certified by the National Institute of Sports. The college has a driving school with two simulators, two cars, two bikes, and two qualified trainers. The school is approved by RTO - Government of Tamil Nadu. 7. The college offers Value Added Courses to all the students to improve their employability. The college helps them to get at least one International certification, which will help them get jobs anywhere in the world. 8. As a distinctive measure, our management offers conducive environment by providing single room accommodation to male students and twin accommodation to female students. This is to enable students to study well and easily update their knowledge. 9. Another distinctive measure is that the college runs a Community

Radio Station - Shyamalavani 90.4, which creates avenues for the students to learn the nuances and practices related to broadcasting of the Community Radio programs.
